## Bhrighu Saral Paddathi - 1

By  
Saptarishis Astrology

**W**ith Obeisance to Lord Ganapathi & Sage Bhrighu we start this huge task of revealing these secrets of the Founder of Vedic Astrology Sage Bhrighu. Astrologers have tried their level best to decode his system, which gives the most brilliant and snap shot predictions. What will be revealed here will be in a series of articles mostly containing Bhrighu methods and at times bringing in hidden meanings of other classics from a Bhrighu basis which have escaped the eyes of the best so far? It must be warned that though it will look easy to predict but verbatim usage without dhi (wisdom) & without combining it with other techniques is not advised though in our experiments we use it verbatim to make the parameters of success more difficult. This has been tested on several blind charts leading to stunning predictions.

Indian Astrology is not for the light hearted or householder, so if you are still at that stage of your astrological journey where you read your own charts or those of your loved ones & get effected you are requested to ignore these methods as after practicing on 100 charts extreme harsh events open out too easily as compared to what takes normal astrologer an hour if he is lucky.

Bhrighu is the son of the Creator of Earth Lord Brahma having born out of his mind as per Indian Mythology, Saral in hindi language means Easy & Paddathi means Methodology, so in effect this can be translated as *Bhrighu Easy Methodology Series*.

### **Need For BSP (Bhrighu Saral Paddathi)**

For several years we sent many high profile people to very popular Indian Astrologers, many of these men reported back that the most important event of their lives were not predicted by these astrologers, we felt sad as we had sent them with high recommendations and these astrologers were our heroes & these contacts started deriding these astrologers. Then the search started & hence in order to create better astrologers who can predict the '**Biggest Events Of One's Life**' with good success these techniques will be enumerated here.

## The Story

**Y**ears back a dream had come wherein we meet a teacher and try to show him a chart, the teacher says no need to see the whole chart just tell me one planet and in which house it is situated without even telling me the sign or the Asc sign and I will predict 7 events of your life. If one masters the techniques presented here apart from having a great grasp on basics of astrology, **'we can hit the ground thrice and say this with certainty that you can make phenomenal predictions of the Main Story Of A Chart' provided you follow rules of Jyotisha Purusha (Soul of Jyotish).**

### Bhrighu Saral Paddathi (BSP) - I

**'Wherever Saturn sits he creates Ups & Down in the 4<sup>th</sup> house from it, in minimum any one signification of that house'**

- ❖ This becomes his Karmic House called as 'Shanis Previous Lives House'
- ❖ He will first create Up & then Down in the significations of the house or at times even the reverse, basically he will Create Fluctuations.'

In order to get the exact import of the above, Indians should remember it in hindi 'Shani apne chauthe ghar mein Uchh Neech Karega, us ghar ke kisi ek bath ko bigade ga ya sarvanash karega.'

**BSP-1:** Without getting into details of Sun being in Pisces etc as per a shloka & other details of the authenticity of the chart<sup>1</sup>, let's take this chart which from time immemorial is the accepted chart, let's concentrate on where Saturn is placed, it is in 4<sup>th</sup> house, 4<sup>th</sup> from it is the 7H of marriage which becomes '**Saturn's Karmic House**'. His marriage life was filled with huge ups & downs and he had to let go of his wife Sita Mata on basis of suspicion. Over there Mars the 5L of children is placed he had to fight battle with his own children, Mars is also 10L of father & Karma, he had to fight a huge war with Ravana. 7H is the house of pada prapti/position, he was to sit on the throne of his Ayodhya Kingdom but he got exile of many years roaming in the forest. When we learn astrology everyone teaches us that Jupiter's aspect will save the house it aspects. One can see that the aspect of exalted Jupiter along with Moon could not save this 7H & the planet Mars in it due to Saturn's 4<sup>th</sup> influence. This shows that Saturn implements itself in the 4<sup>th</sup> from it and creates ups & downs in one's life.

Natal Saturn in 1H, 4<sup>th</sup> from it is '**Saturn's Karmic House**' in 4H of mother, throne, grihast ashram (home life). You can see that she lost her mother at young age, she lost her throne in a most shameful manner, her home life was destroyed – husband away and died early, daughter in law biggest enemy. The lord of her 4<sup>th</sup> House is a Venus, a woman & placed in

<sup>1</sup> The 18th Sargam of Balakandam of Shrimad Valmiki Ramayanam says 'Ascendant in Cancer, Sun in Aries, Moon in Cancer, Mars in Capricorn, Mercury in Aries, Jupiter in Cancer, Venus in Pisces, Saturn in Libra, Rahu in Sagittarius, Ketu in Gemini.' There is a reference in Brihad Yogratanakar (p 41) which gives the position of Buddha in Taurus in 11H. Venus and Ketu are in 9H as per late Pt Bhojraj Dwivedi. Knowing very well that suddenly Lord Ramas chart has become controversial as compared to what was followed previously we give an Appendix which deviates from the topic of this article to instigate scholars to probe deeper. – Special Thanks to Neelam Gupta, Delhi.

6H of enemies with Rahu (secret enemies), can you imagine the back stabbing she has faced in her life & her revolt against is what gave her the name Iron Lady Of India.

### BSP-1:

How do you predict the most important thing in this person's life from his chart that 'his future generations will get destroyed' (Iski Aane Wali peedeya barbadh hojayegi). Now see 4<sup>th</sup> from Natal Saturn becomes the '**Saturn's Karmic House**' which is 5H of love affairs and children. We all know what the 5H of affairs stands in this chart.

Now see 5 H is children, see his daughter's life was only full of tensions & so her end, Beant Singh shot her thrice using his side-arm and Satwant Singh fired twenty-two rounds into her using a Sten submachine gun.

Most important over there sitting in the Saturn's Karmic House is Sun who is natural signifier for 'Lineage' & here 2L of family, we all know the Cursed Life & End of his whole Lineage. Saturns Karmic House makes all this reading simple & in a second.

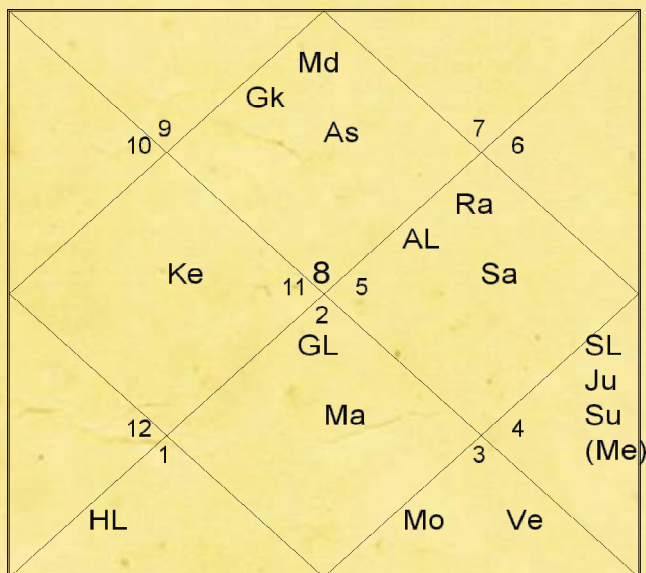

### Chart 4: Worm in Brain - Posted on Forum Msg 16809

This was posted on astro forums of a man with worm in brain since 5 years.

Pranam,

Sir I come across a chart his name is sumit & his dob is 22/07/1979 t.o.b 14:47, Ludhiana (Pb). sir he is in great financial problems these days. I apply dwisaptati sama dasa in his chart & find its starts in 16-12-1999. In 2000 he found worm in his brain. He took medicine for it for about 5 years. Is it all due to chaturdasi birth or curse on Guru. Will you plz some remedies for this guy.

**BSP-1:** Saturn is in 10H with Rahu (remedy won't be found) and 4<sup>th</sup> from it is the 1H of brain and it becomes '**Saturn's Karmic House**'. Rahu is a snake, a worm also moves like a snake, Saturn spoils the 4H from it where in the 1H of brain is situated and also aspects its lord Mars by 10<sup>th</sup> aspect.

Now the question to be asked is when would the problem occur, this is the tricky part, in our short experience of timing this method we have found that at times when Tr Saturn aspects '**Saturn's Karmic House**' the event is triggered, which can happen many times in Saturn's round of 30 years.

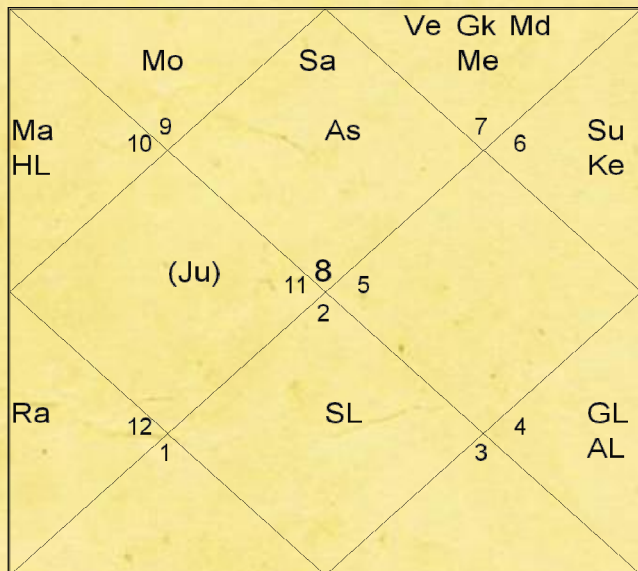

The mail mentions that in year 2000 native found worm in his brain, if we assume it is after May 2000, then Tr Saturn is in Taurus activating the 1H - Saturn's Karmic House and its lord Mars.

### Chart 5: Coiled Birth Data from L.C, Croatia

**Friend from Croatia writes:** she is so talented for music, and she played violoncello, teachers from Russia, USA called her willing to pay for her scholarship, but, no, she found some drug addict, aggressive man, got pregnant and has daughter now. For one side she seems so talented but when you come to logic or reason - she seems dumb.... Like until some 11 or 12 years of life she was like grown person, then got into puberty, she ran from home when she was 16 years old, parents didn't know a full year where she is or is she alive or not - she broke all connections with family.

**BSP-1 :** See Saturn is in the 1H and 4<sup>th</sup> from it is the 4H of '**Saturn's Karmic House**', now what is 4H, it is the house of Grahast Ashram & Sukha Stana (happiness), you can see both are destroyed with lots of Ups & Downs in that area of one's life.

**Timing:** Now see the marriage ended on 19th Mar 1992 when Tr Saturn was in Capricorn, aspecting the Karmic House in her case (6H) & sukha of marriage Moon, and also 4<sup>th</sup> from Tr Sat will be the 7H of marriage, thereby bringing Ups and then Down in her marriage life.

She had an early marriage to Salesman Bruce Hasselberg that lasted three months and produced a daughter, Deidra Hoffman, in 1965. Her second marriage was to actor Ross Bickell on 1/28/1974; the marriage lasted for seven years. After six years together, she married Burt Reynolds on 4/29/1988 which was her 3<sup>rd</sup> marriage. In January 1994, they entered a bitter divorce battle with custody and money fights. Reynolds in turn flaunted his extramarital affair and accused her of being a lousy mother. In her book, Anderson does not conceal the history of her own love life, including an affair with actor John Gavin and a romance that developed into a sex addiction for her former WKRP co-star Gary Sandy. In 2008 she married Bob Flick.

**BSP-1:** 4th from Saturn which is 'Saturn's Karmic House' becomes 2H of family life and Jupiter placed there is 5L of love and 8L of scandals & sustenance of marriage. So ups and downs in these areas of life. She had 4 marriages and 3 divorces; one can see that Saturn's Karmic House is the sign Virgo the natural sign of divorces.

**Timing:** During her second marriage divorce in 1981 Tr Saturn was in Virgo her Karmic House, during break up with Burt Reynolds on Jan 1994, Tr Saturn was in Aq in her 7H of marriage throwing 75% aspect on natal Saturn & full Nadi aspect on 2H of Saturn's Karmic House. The native is dedicated astrologer & businessman, his father's partner has siphoned off 500 odd crores of their wealth (\$100 million dollars).

**BSP-1:** Natal Saturn is in the 11H and '**Saturn's Karmic House**' would be the 2H which is the 4<sup>th</sup> from it. 2H is the house of family & wealth and here at stake is family's wealth. He has been advised to take a dry coconut (khopra), cut the top part, mix dry wheat flour & sugar & fill the dry coconut, then put the lid back on. To take this to the west of his house and wherever he finds a tree to dig little & bury this coconut covering it with a very small layer of mud. The remedy is of Saturn & gotten by our mentor from a very old pandit whose predictions were most accurate & a pious man. This flour & sugar will be eaten by black ants who are represented by Saturn in Indian astrology. If can't do the above ritual then one should just feed sugar molecules to ants.

Something must be said here which has not been mentioned by others. Astrologers often say Saturn delivers ones karma but which karma no one says. From above notes if one knows the person lives of the above charts One can easily make out why Saturn is causing trouble, whether a bad event is a result of bad karma of previous birth or present birth - from placement of Saturn & Saturn's Karmic House but this must not be explained here as it can hurt a lot of peoples sentiments, what though can be said is how to guide yourself and your clients.

**Guidance:** Where you see Saturn placed in a chart, that house & it's Karmic House, you must advice clients not to create any new bad karma on these 2 houses especially, if so done & Tr Saturn ignites then its havoc time. For past karma one can resort to remedial measures but in Saturn's case mantras work less effectively as compared to real karma of helping others & keeping pure heart (note heart), unfortunately astrologers who sell mantras in their consultations do not reveal this to amateur astrologers & clients.

### Note 1:

On 8<sup>th</sup> Nov 2003 The Times of India, a prestigious newspaper carried an article on Lord Rama's Date of Birth. Here Natal Saturn is retrograde moving in the 5H and as per retrograde theory it can give results of the 4H, if you see ketu has come in lagna and Mer in 9H with Rahu in 7H - these are the changes.

### Note 2

#### Sky Charting or Archeo-Astronomy

Source: <http://www.historicalrama.org/dateevents.html>

Courtesy: Mr. Bharath Gyan

This is a technique of charting the future or past sky using a scientific tool. This tool helps to arrive at planetary positions given a date in future or past and vice-versa i.e. given a set of planetary configurations, arrive at the date either in future or in the past.

Such tools are collectively called Planetarium software. There are probably over 50 such different software available. Each software can be used specifically for a particular application, like, plotting the current night sky chart, predicting eclipses and the likes.

When spacecrafts are launched to visit far-off planets like Jupiter and Saturn, it would take a travel time of well over 12 years for the spacecraft to reach these planets. This software helps determine orbital positions of the planets when the spacecraft reaches their orbits. For this, a high level of precision is required in the software.

Unlike any other civilization so far, the literature of the Indian civilization is characterized for being embedded with night sky observations. Feeding the observations of the planetary configurations into the Planetarium software gives us the English calendar dates when these configurations could have occurred in the past. When these dates are logically arranged along with the events, it helps us to scientifically assign dates to events mentioned in Indian legends and historical texts, and validate them.

Thus the astronomical remains left behind in our literature can be analyzed scientifically to arrive at historic dates for various events. This approach is parallel to archaeology where physical remains are analyzed to arrive at historic dates and hence gives rise to a new branch of scientific dating which may be called Archaeo-astronomy.

Various modern day researchers have made use of this software to arrive at such historic dates for various events described in the Indian literature. We have collated the outputs of such credible work which are worthy of standing up to cross validation.

In the context of the Historicity of Rama, the works of Shri. Pushkar Bhatnagar, as brought out in the book "Dating the Era of Lord Ram" forms the basis of what is presented here to understand the dates of the events in Rama's lifetime.

### [ + ] Sri Ram Navami - Birthday

Sri Rama Navami is the birth day of Rama

*Rama was born on the Navami tithi of Shukla Paksha of Chaitra masa*

(9<sup>th</sup> day of the increasing phase of the moon in the lunar month of Chaitra).

*At that time, the nakshatra was Punarvasu, and Sun, Mars, Saturn, Jupiter and Venus were in Aries, Capricorn, Libra, Cancer and Pisces respectively. Lagna was Cancer and Jupiter & Moon were shining together. -- Ramayana 1.18.8,9*

### The conditions can be summarized as follows:

1. Sun in Aries
2. Saturn in Libra
3. Jupiter in Cancer
4. Venus in Pisces
5. Mars in Capricorn
6. Lunar month of Chaitra
7. 9<sup>th</sup> day after New Moon  
(Navami Tithi, Shukla Paksh)
8. Moon near Punarvasu Nakshatra  
(Pollux star in Gemini constellation)
9. Cancer as Lagna  
(Cancer constellation rising in the east)
10. Jupiter above the horizon

The observations on the left, when entered into Planetarium software gives us the above Sky Chart, which in turns gives forth the below mentioned date.

**Sri Rama Navami - 10th January 5114 BCE - Birth Day of Rama**  
**Observation at 12.30 p.m.**

## [ + ] Birth of Bharatha

The Sky Chart of Bharatha's birth is depicted on the right.

This is about 16 hours after birth of Rama.

**Birth of Bharatha - 11th January 5114 BCE, 4.30 a.m.**

## [ + ] Pre Coronation Eve

King Dashratha to his courtiers -

*"This month of Chaitra is beautiful and holy. The woods and trees are full of flowers. At this time coronation of Rama is most appropriate."*

-- Ramayana 2.4.21-22

*"Astrologers have told me that my nakshatra has been surrounded by malefic planets like Sun, Mars and Rahu. Under such planetary configurations, the king either dies or falls in some deep conspiracy. Thus, before I face any such problem, you take over the kingship"*

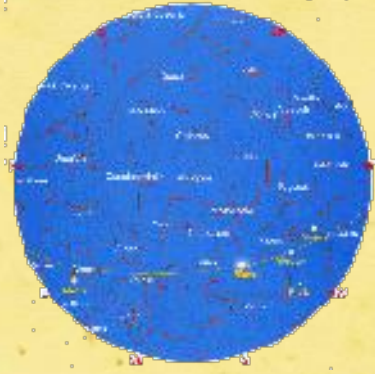

-- - Ramayana 2.4.18

*"Today the moon is on Punarvasu nakshatra and tomorrow it will meet the Pushya nakshatra. In that Pushya nakshatra, I am eager to hand over the kingdom to you."*

-- - Ramayana 2.4.21-22

King Dashratha with Rama

**Planets located together in Pisces constellation**

**4th January 5089 BCE**

**[ + ] Khar, Dushan episode**

Khar told Rama -

*"I want to say many things about my prowess but I would not, because if in the meanwhile sunset occurs, there would be a break in the battle."*

- Ramayana: 3.29.23

**Solar Eclipse description**

1. Planets, visible to unaided eyes are  
East to West - Saturn, Sun, Moon, Mars, Mercury, Venus, Jupiter.
2. Mars was in the middle of this chain.
3. Rarely, all the planets are in the day sky.
4. Rarer is Mars in the middle of them.
5. The occurrence of a solar eclipse at that time makes it absolutely unique.

These are some of the rarest of the rare astronomical events, which got recorded because of their uniqueness.

**The Solar eclipse on 7th October 5077 BCE** reached maximum coverage for **Panchwati at 15.10 hours**. The Sky Chart on the left shows the configuration at 2.00 p.m. with the Latitude / Longitude for Panchwati

**[ + ] Vali Vadham**

*"Hearing the roar of Sugreev, Vali's face became red like the sun caught by Rahu during the eclipse."* - Ramayana 4.15.3

"Vali Vadham" occurred on 3rd April 5076 BCE during the Solar Eclipse, in the Amavasa Ashada during the morning hours.

[ + ] Hanuman's Visit to Lanka

Hanuman's Visit to Lanka - 12th September 5076 BCE - Lunar Eclipse

The eclipsed moon rose in the eastern sky. It was not a total lunar eclipse. The place of observation is Lanka

[ + ] Hanuman's Return from Lanka

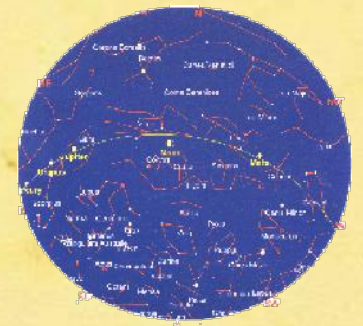

Hanuman's Return from Lanka - 14th September 5076 BCE

Observation at 6.30 a.m. The Sun and Moon are shining together. Mars & Jupiter are shining. Also seen Pushya Cancer Swati Virgo Airavat elephant of Indra corresponds to Scorpio.

[ + ] Army March to Lanka

The Vanara Army march to Lanka - 20th September 5076 BCE

Lakshmana's observation: "The Venus has gone to the back side, Saptarishi (Ursa Major) are visible brightly, Trishanku (Crux) is visible in front. Moola nakshatra, protector of Rakshasa, is inflicted with Dhumra- ketu (node)."

## Internal Consistency Of All Dates

Sri Rama Navami - Birth day	<->	10th January 5114 BCE	<->	-
Birth of Bharatha	<->	11th January 5114 BCE	<->	1 day
Pre coronation eve	<->	4th January 5089 BCE	<->	25 years
Khar, Dushan episode	<->	7th October 5077 BCE	<->	12 years
Vali Vadham	<->	3rd April 5076 BCE	<->	6 months
Hanuman's Visit to Lanka	<->	12th September 5076 BCE	<->	5 months
Hanuman's Return from Lanka	<->	14th September 5076 BCE	<->	2 days
Army March to Lanka	<->	20th September 5076 BCE	<->	6 days

It may be noted from the table above that the dates arrived at for the events are not haphazard. They tally with the chronological sequence for the events as found in the Ramayana text. Not only that the elapse times between the events as indicated by these dates also tallies with the elapse-time and duration/age as described in the Ramayana text. This establishes internal consistency in these dates and proves the credibility of the technique.

## Cross Validation of Dates

Rama Navami occurs around the 21st of April, now in the month of Chaithra. During the days of Rama, i.e., in 5114 BCE, the Navami of Chaithra month has occurred on the 10th of January. Here we can observe a difference of 100 days between the occurrence of Navami in the Chaithra month between the years 5114 BCE and 2007 CE. How does one account for this difference?

The above clearly brings forth the date of Rama being 5114 BCE and it tallies well with scientific explanations.
