DOB: 17-July-1964 POB: Kakinada TOB: 06:00am. His 32nd year will be from July 95 to July 96 and he got promotion during May 1996. Jupiter is in the 10H so BSP-11 (b) is also implementing in the 32nd year in 10H and Jupiter's 5th aspect is looking at the 2nd house of status & money where A6 (job). Thus he gained both money and status in his job in the 32nd year.

Chart 5:

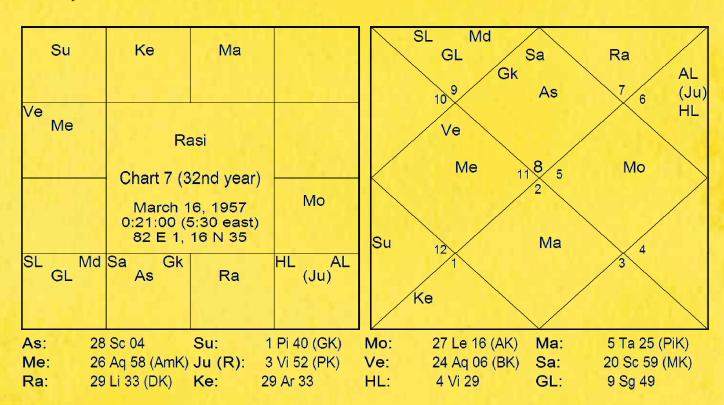

DOB: 20-Mar-1973 POB: Warangal TOB: 23:36. The 32nd year of the native will be from Mar 2004 to Mar 2005. Jupiter is sitting in the 12H and its 32nd year 5th aspect will be on the 4H of home. Jupiter is the 2nd lord of family life (getting activated) and also the 11th lord of children (BPHS), the native was blessed with 2nd child during November 2004 the 32nd year of the native. Jupiter is karaka for children & its aspect in 4H of home, stated that 'Child will come in home' or it can be interpretated that Jupiter's increasing aspect in 4H of home life, thus 'ghar mein vriddhi huin' (increase in family) which is what happened. 1st child is 5H, 2nd child is 3rd from 5th which is the 7H and the lord of it is Sun (PK too) in conjunction with an exalted Venus, thus possibility of female child is more and the 2nd child was a female child.

Chart 6:

DOB: 24-July-1951 POB: Amalapuram TOB: 04:35 a.m. The 32nd year of the native will be from July 82 to July 83 and during this period he was blessed with a son on October 1982. Jupiter's is sitting in the 10H of career and has not much to do with children (unless you take it 2nd from 9th), but it's 5th unlocking, increasing and Poorva Punya aspect (children) falls in the 2nd house of family where Sun the PK (children karaka) is placed. The dispositor of this PK- sun is placed along with Jupiter thereby instigating it to give results of children. From Moon Asc this 5th aspect of Jupiter falls again in the 5H of children from Moon, thus all roads point to one thing which is something to do with children and that is what happened, he was blessed with a male child (Sun is male planet- but not always).

Chart 7:

DOB: 16-Mar-1957 POB: Amalapuram TOB: 00:21. The 32nd year of this female native will be Mar 88 to Mar 89 & in this 32nd year when Jupiter implements its 5th aspect she was blessed with son in August 1988. It is requested of readers to erect this chart in their software and play with arudha calculation options and 7-8 charakaraka options. Unfortunately only 2 methods of arudha calculation are known so far to the jyotish world but there are 3 more. This chart can be looked at from many angles, if one follows BPHS Jupiter is sitting in the 11H of children with A9 (children for females), she was blessed with child using BSP-11 (b) method. Jupiter's 5th aspect of Purva Punya (esp children) and vriddhi (increase) is falling on 3H which is the gain house of children (11th from 5th). Previously known Parasari methods of Jupiter being the 2nd lord of family and 5th lord of children being aspected by Jupiter's 7th aspect on 5th house can be used profitably and timing gotten from BSP-11 (d) method. In Jaimini 7 charakaraka scheme Jupiter is GK (fight-disease significator) and with 8 charakaraka method Jupiter is Putrakaraka (children significator), so should one abolish 7 charakaraka method has been successful.

In D7 Jupiter is placed in the 5H of children giving child in 32nd year – BSP-11 (b), aspecting with 5th aspect on the 9H of children (especially for women) giving child – BSP-11 (a).

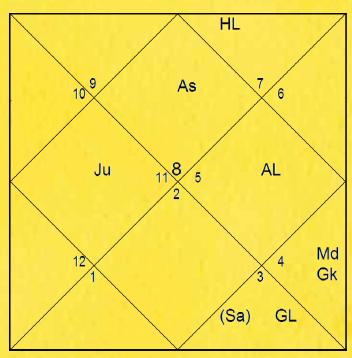

So far we have taken only good cases of Jupiter's 5th aspect and what about BSP-11 (e) wherein we said that when Jupiter becomes malefic it becomes the worst malefic, the most controversial statement considering that lordships might not count.

Chart 8:

	72 E 51, 19 N 2 As	

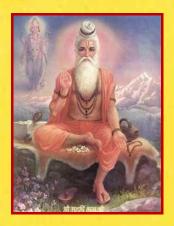

The lady of above chart once challenged that astrology does not work and showed her chart to a Bhrighu Saral Paddathi astrologer amateur, he predicted that as Jupiter's 5th aspect is implementing on the 8H of occult, where Saturn is 4L of chastity, she must have had a break in relationship in the 32nd year exactly, lady confirmed this and was stunned as to how fast this could be predicted, then she was predicted that in that year she must have had a kind of psychic attack/black magic in regards to this or a relationship wherein the lady confirmed through a series of stories of how she felt its exactly due to some kind of black magic this could have happened and infact in that period she got a dream in which her hair (Saturn) was being cut and some magic ritual performed by some tantrik in that dream. What is not shown here in the above chart is Saturn is dispositor of 12L of dreams too. That year was a very bad year for her and as you can see here Jupiter inspite of owning two good houses has played the worst malefic for her though might have protected her in the end.

The BSP -10 & 11 techniques are presented at the holy feet of Sage Bhrighu and Lord Ganapati for their acceptance and blessings.

Tith Obeisance to Lord Ganapati and Sage Bhrighu, this study of mine is presented at their feet.

BSP-10 Jupiter 9th house rule.

Jupiter will implement itself in the 9th house from the place it is located in a chart and/or the house where it is located in the 40th year of a native's life.

One can observe that the Kakshya method when coupled with the BSP gives more accurate hint for us to predict. Let us examine the charts given here under by applying the kakshya rule.

(Kakshya-Slot) Degrees	Lord of Kakshya
I. o ° 00" to 3 ° 45 "	Saturn [Slowest Planet]
2. 3 ° 45 " to 7 ° 30 "	Jupiter
3. 7°30" to 11°15"	Mars
4. 11° 15"to 15 °00"	Sun
5. 15 °00" to 18° 45 "	Venus

劚

6. 18° 45 "to 22 ° 30 "	Mercury
7. 22 °30 " to 26 ° 15 "	Moon [Fastest Planet]
8 26 ° 15 "to 30°00"	Ascendant

Chart 1

DOB: 23-08-1964 TOB: 5.50AM POB: Chinaganjam, India, his Jupiter is in the 10th house. He got promotion in the 40th year on 1-April-2004.

Jupiter is in the kakshya of Saturn the 6th and 7th lord posited in the 7th house. Saturn is also the lord of 10th house from AL. As Jupiter will give the result of its kakshya lord the native's 6th of job and 10th house of career from ascendant and also 10th house from AL are activated and thus the native received promotion. Thus Jupiter's 9th aspect of 40th year to the 6h of job gave result as promotion as the dispositor of 6H is in the 7H of position.

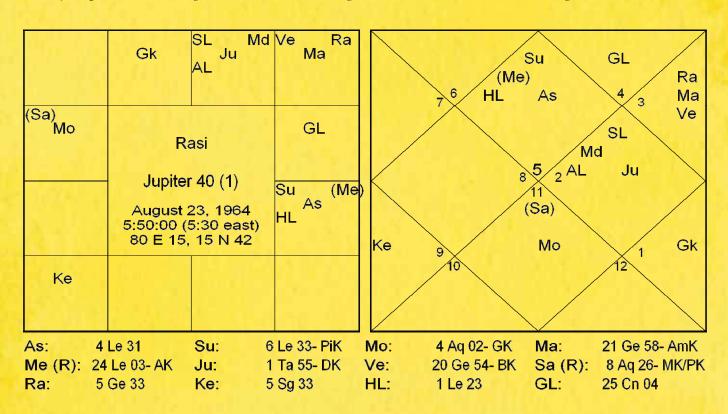

Chart 2

DOB: 09-SEP-1963 TOB: 4.00 A.M POB: Machilipatnam, India. In this chart Jupiter is located in Pisces the 9th house. This person in the 40th year (between 09-09-2002 to 09-09-2003) went in to depression due to the problems in profession. His blood pressure shot up to 160/110. He met with an accident and was bed ridden for some days.

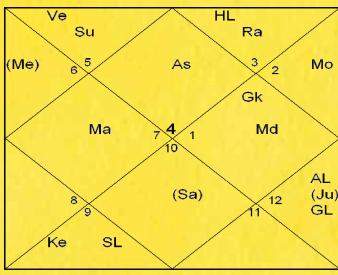

Jupiter is in the kakshya of Moon the ascendant lord in this case. Moon though posited in his exaltation sign Taurus; this is *badhaka sign for Cancer ascendant*. Further, 11th house from ascendant is malefic especially for the purpose of health matters. Moon is aspected by 5L of mind Mars (8th aspect) who is placed in his enemy sign Libra. Moon also

mindicates blood in human body & Mars is the significator of accidents. Mars is placed in sixth house of accidents & health issues from Moon the kakshya lord. Thus Jupiter's 9th house aspect in the 40th year to the 5H resulted in health issue as it is in the 6th from kakshya lord Moon. Note that this 5L is in the 4H of home and he was bed ridden was some days, Mars did its job.

DOB: 10-10-1968 POB: Secunderabad, India TOB: 03:25 A.M. This man in the 40th year suffered severe infection in his liver and is now cured. During April 2008 this person was infected and hospitalized for some time.

In this case Jupiter is in the kakshya of Ascendant. Ascendant lord Sun is placed in the 2nd house conjoined with Ketu (malefic). Ascendant contains Mars (in medical astrology functional nature of planets is not considered) and 8th lord Jupiter². Ascendant also contains Mandi and Gulika. All these factors indicate the trouble in the Leo region that is liver. Further ascendant degree is 13.31 (2nd drekkana) indicating the second part of the body from neck region to abdomen and also first 5 degrees of a drekkana indicates internal body parts and second 5 degrees of drekkana indicate external parts of the body.

Thus Jupiter's 9th aspect on the 9H is falling in the 40th year in the sign of Aries (health in natural zodiac) and its lord Mars is placed in the Asc who is the kakshya lord hence there was health issues in the 40th year.

DOB: 17-05-1954 TOB: 03:05 A.M POB: Cuddapah, India. This person is an IITian and completed his research in IIT Kharagpur. His 40th year would be from 05/1993 to 05/1994. He was working as a lecturer in REC Calicut. During the 40th year his promotion was denied due to political issues. He got vexed up with his job and tried abroad (Singapore) for a job.

SA Publisher: Normally Jupiter is also taken as karaka for Liver by many & Jupiter being in the kakshya of Asc (body/health), he had health problems regarding the liver especially so since Jupiter is the 8L of chronic diseases. What is requested of readers is to aggressively use this Kakshya technique as taught by Venkat Ramana and then it would give the readers more confidence in its application. Remember to commit the Kakshya Table to memory.

During 09/1993 he got a chance and left for Singapore. There he could settle as a reader in Singapore University.

He is a Pisces ascendant person, Jupiter is in its own kakshya. Jupiter is the 1st and 10th lord posited in the 4th house and AL. 10th house is occupied by Rahu and Mars. Due to the presence of Rahu the native was clouded for some time with politics (rahu) happening in his career (Rahu in 10H) and Jupiter implementing its 9th aspect in the 40th year in the 12th from ascendant took him to abroad for betterment of his profession as 12H is abroad and Jupiter is 10L of profession.

Thus Jupiter's 9th aspect in the 40th year happened to the 12H of disappointments and its lord Saturn is in the 8H of transformation and transformation is what happened in his life. Saturn is with the planet of travel Moon so he travelled to Singapore and since Saturn is in the 5H from Kakshya lord Jupiter it gave new opportunity as 5H is the house of new opportunity.

Jupiter is in the kakshya of Moon the natural 4H of property of the natural zodiac & also 6L of loans from 4H of property sitting in the 5H which is the house of gain of property being 2nd from 4H, thus in the 40th year he had gain of property.

ith Obeisance to Lord Ganapathi, Lord Bhrighu & Varahamihira, we thank them for the boons of BSP and are now diving into BSP-13 with this new karma revealing technique.

Sage Bhrighu's Easy Methodology - Bhrighu Saral Paddathi

BSP-13: Saturn's 3rd aspect implements itself in the 20th year.

What must be kept in mind is that when we read in newspapers that a person died when he was 79, it actually means he completed his 79th year and was 'In His' 80th year. The Nadi system of astrology follows this 'In His' year or current or running year as Indians like to call it. So when we say Saturn implements its 3rd aspect in his 20th year it means that the native has completed the 19th year and is now 'In His' 20th year or in other words between 19 and 20. Also as the Late J. N. Bhasin pointed out in his immortal classic 'Hora Shatak' results of planets (in our case Saturn's 20th year) can be altered plus minus 1 or 2 years depending on the strength of planets and aspects of benefics and malefics on it.

Chart #1: Elizabeth Taylor

British-American actress, born in London to American parents residing in Britain. She learned ballet shortly after learning to walk and once performed before the Queen. At just 18, she married 23-year-old Nicky Hilton, heir to the hotel fortune, on 6th June 1950, and it was a disaster from the first. The marriage did not last a year. Next came divorced British actor Michael Wilding, 19 years Liz's senior, whom she wedded on 21st Feb 1952.

Saturnji aspects the 5H of romance with his 3rd aspect wherein sits Rahu and Venus - Venus stands for love & Rahu for divorcee/scandals - she married a divorcee. Moreover, the Lord of the 5H, Jupiter, occupies the 9H of religious ceremonies and so, the two lovers were duly wedded. Taylor's 20th year will be from Feb 1951 to Feb 1952 when Saturn's 3rd aspect will implement itself and that is when she married on 21st Feb 1952.

Chart #2: Amelia Gossage

American heiress upon the death of her wealthy parents when she was a teen. On 2nd Dec 1975 in her 20th year, she returned to her apartment with a dinner date. Her brother was there and refused to leave. Angry, she pulled his hair and threatened him with a claw hammer until he left. The next day, her brother Eben came home about 9:35 AM when she was asleep. He woke her at 10:30 AM as she had asked. They began a violent argument. At 10:55 AM she made a phone call then resumed their fight. Eben later claimed that she came at him with a hammer and scissors. In a rage, he hit her with the claw hammer over 17 times on her head and neck, then stabbed her in the back 20 times with the scissors. Altogether, she had 62 wounds. Amelia died between 11:00 AM and noon.

This is rather grim and we can see that Saturn aspects the 6H of enemies where Moon (12L of exit), Sun (Lagna Lord) and Mercury (maraka 2L & 11L of elder brother) conjointly sit. Same 6H is owned by Saturn which is conjunct with none else than Mars (Significator of brother) and Rahu (BK-brother significator as per degree system of sage Parasara) in the fierce sign of Scorpio. All this is very inauspicious and so was her demise, and this is how Saturn in the 4H (incident happened at home) did his 3rd aspect in the 20th year to the 6th house of fighting & created this dramatic violence (Saturn, Mars, Rahu – 3 most violent planets) by her brother.

Chart #3: Jean-Claude Killy

French skier and entrepreneur, the second man in history to win the Triple Sweep in the Alpine men's ski in the Winter Olympics in Grenoble, 1968. Taking the gold medal in downhill, slalom and giant slalom and focusing on speed as opposed to style, Killy helped create the modern racing style that revolutionized the sport. At 19, Killy joined the French team, whose coach was impressed by his daredevil style and came to the US for the first time.

Saturn's 3rd house aspect falls on Leo, the 2H, which is occupied by its Lord the Sun, plus Moon (Lagna Lord & also dispositor of Coach 9L) and Venus (Lord of 4H & 11H) – thus setting the scene for his 20th year, when he joined his coach (Guru). This chart is a chart of dispositors. See Lagna is self body and LL Moon disposits Jup the 6th lord of sports & competition & 9L of coach. So the event in his life started in this 20th year which is initiated by Saturn's 3rd aspect.

SA Editor/Publisher:

- a) Saturn is karma karaka and is placed in the 12H of 'Past Life Unfinished Business'.
- b) Saturn is a cold planet he activated the 20th year ski Winter Olympics see connection.
- c) Leo is the 5H of Sishya (student) in the Natural Zodiac, thus Jean-Claude became a student which is most essential if one has to prepare for his karma.
- d) Saturn's 3rd aspect did what is an unknown part in Vedic astrology, 'it activated the Moon & Sun Ascendants together with Venus (note this Ven)'. Now see the chart from Moon & Sun Asc and you

Editor: As food for thought look at 3rd lord of brothers in the 8H of death & this is in the 3H (brothers) from Sun/Moon indicating strong cause of brother in death. Then look at Asc & 3rd lord from Moon/ Sun Asc is Jupiter which is again in the 8H of death from the Sun Moon Asc.

would see the aggression required for sports, gotten in from Mars who thereby got activated as the Yogakaraka. Mark this Golden rule without yogakaraka activation via 'Its' Asc Sign getting activated, it remains a useless yogakaraka and astrologers complain that in real practice yogakaraka planet many a times does not give results without knowing the reasons for this. There are many rules for this but one of them is that without its Asc not adequately beneficially activated, it is useless. Note that Saturn is in a Vipareeta Raja yoga and thus its activation of Leo is most significant. Note that Vipareeta Raja Yoga generally means success after someone's losses but it also means success after pressures; note that a Coach always put pressures on his students to perform.

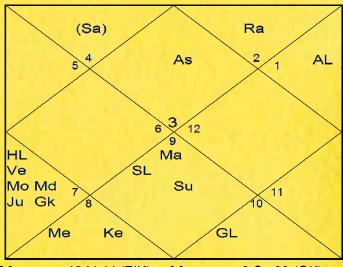

- e) He was a craze in 66-67 and in 68 he broke records in the Winter Olympics you can see that the planets Saturn activated in the 20th year, gave fruit, the 66-67 period was the Venus MD last part and during the greatest part of his career i.e. the Winter Olympics, the Sun MD had started fulfilling the Karmic role of the 8th cold Lord Saturn and bringing him to the forefront (7L Saturn), and this Saturn becomes the 6th lord of sports and competition from the Moon Sun Asc, now can one see the significance of this Saturn.
- f) 1-2 issues back, Saptarishis Astrology had spoken about an unknown 'Activation Theory', here in this chart you can see how this Activation has happened, the seed of the event is more important than the event and that is the role of astrologers to find. Let it be stressed we are in the business of finding out the seed & not only the fruit.

This move was a step closer to success for him, even if it came after some reverses.

Chart #4: Steven Spielberg

American film producer and director, the winner of an Academy Award on 21st Mar 1994 for his direction of the Best Picture of the year, "Schindler's List." On 21st Mar 1999, he won the Oscar as Best Director for his "Saving Private Ryan." Spielberg grew up in Cincinnati, hearing war stories from Hungarian Holocaust survivors who were tutored by his grandmother. The family moved often and the boy often found himself an outcast, the only Jewish kid in school. He recalls the jibes and jokes about anti-Semitism and at one time, wished he was not Jewish. As a means of expression, he started tinkering with film production when he was eight with his dad's 8mm camera. By the time he was 20, he became a professional director for Columbia Pictures. His parents' marriage was unhappy and they divorced when Steven was 19 (that was it his 20th year running).

We see that Saturn occupies the 12H and therefore aspects the 2H. As the 2L of education has gone to the 3H of changes, he changed college and his line of education. As the 6L Mars aspects the 2L, he opted for a technical line of study (because he is a smart 'kid'!). All this happened between May 92 to May 93, the 20th year and as Saturn is the 9L of higher education, it was indeed higher education (engineering studies) for the boy.

Chart #6: Mata Hari

Dutch prostitute and exotic dancer who also served as a spy. The daughter of a merchant, in her younger years Margaretha was expelled from convent school for sleeping with a priest and, at the age of 18, moved to Java with MacLeod, her 40-year-old husband. They married on 11th July 1895 (note 20th year). The couple had a violent marriage and one of their two kids died. She left her husband and returned to Europe in 1905 where, as an exotic dancer, a nude belly dancer, she went to Paris to work in a brothel.

Saturn, placed with Rahu and the Moon in 5H of love and desire, aspects the 7H of marriage – she acquired a spouse much older than herself who most likely had previous relationships. 7L Mars occupies the 10H of happiness from marriage and is conjunct the Sun (11L of marriage as well - BPHS) and Mercury (9L of religious ceremonies and 12L of loss and private comforts (or discomforts).

As the 3H is a place of changes and Ketu, a definite agent for surprises is placed in Rohini, a watery Moon Nakshatra, he went from school to the Navy, a period of his life where his Venusian propensities as an artist started blossoming in public. You can see that his 20th year will be from July 1956 to July 1957 whence he joined the Navy. This again was the seed of the event of his life. One can refer to the editorial and refer the Ketu technique, here Ketu sits in the 3H of TV and he made his mark in Television shows.

American politician who served as the President of the United States from 1989-1993. A Yale graduate in 1948, he went on to become a business executive and owner of Zapata Petroleum. On his 18th birthday, against the wishes of his parents who wanted him to go on to college, he was sworn into the Navy. When he got his wings in August 1943, he was the Navy's youngest pilot. By the time he emerged from the service two years later, he was a war hero. On 2nd Sept 1944, he nearly died when his torpedo bomber, nicknamed "Barbara" for his girl friend, took a hit over the Pacific island of Chichi Jima. With the plane on fire, he flew on to drop his bombs on target. He stayed at the controls, hoping his two crewmen could parachute to safety, but both died. Bailing out over the ocean, Bush was picked up within two hours by an American submarine. He was awarded the Distinguished Flying Cross and three air medals.

French teenager, age 18 when she and three other local teens desecrated the Toulon cemetery. In the early hours of 09th June 1996, the four kids brought up the body of Yvonne Foin, who had been buried twenty years prior, on 11th June 1976. With ideology that is somewhat vague and borders around Satanism and Hitlerism, they performed satanic rituals on the cadaver, including necrophilia. Emilie said she

experienced a great thrill. They all admitted a ferocious hatred for human beings. Her 20th year would be from May 97 to May 98 & they went before the courts and were sentenced on 20th Oct 1997 (20th year). Emilie was sentenced to three years in jail (one year suspended). Emilie was accompanied by two boys, cousins, and a fourth youth who was a minor and not identified.

Saturn sits in the 3H of actions (her actions) and aspects Libra, the 5H who's Lord occupies the 12H of secret yearnings, seclusion, jails and hospitals. This girl was sentenced to go to jail and has hopefully benefited from some medical treatments. Note that Saturn's 3rd aspect is on a Venusian sign, Venus is the karaka of mantra, tantra as per Vedic astrology and her satanic kind of rituals would have been also representative of negative tantra.

This technique was discussed in previous editorials and has been mentioned in this editorial too. In order that it engrains within all readers it was decided to present it here. Although it looks simple technique but a) it is not so b) ones basics need to be super strong that can only be acquired after reading each and every classic available c) there is much more to it but in order that the first steps are clearly grasped it is presented in short here.

BSP-14: Past Life Bhava Technique

Some of the rules of decipheration are:-

- 14 a) Note the sign in the Asc House, this sign is most important and contains all keys.
- 14 b) Note the sign number in which the Asc Bhava is placed, go to its corresponding house in the chart this will be the Bhava From Past. You can call this for terminology's sake 'Past Life House' or 'Renaissance Bhava' or 'Bhrighu Bhava'. Note its significations (karakas), its <u>lordship</u> where it sits, <u>aspects</u> and <u>conjunctions</u> on this <u>house</u> and its <u>lord</u> and the arudhas placed there in. The energy from the Asc does get carried away to the Bhrighu Bhava, mark this.
- 14 c) Note the association of this sign number house called 'Past Life House' or its lord from Moon Asc or the Arudha Lagna Asc

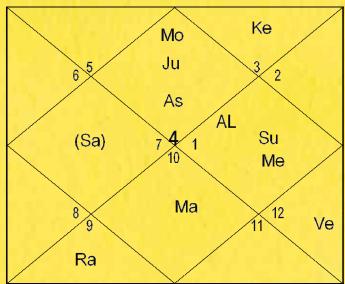

14 d) If for e.g. Asc is Virgo and the 6H of the chart is occupied or effected by hardcore fundamentalist malefics, it's not at all good – this is an unknown technique but very effective.

It has been noticed that unless the full life story of an individual one can't get the taste of this technique and at times it has been noticed that this technique just does not work so smoothly unless all factors are taken into consideration which only an experienced astrologer can do so, also the technique though looking simple is a 'Concealed Technique' and not easily decipherable. Before we go into this we remember what mentor always asks us a question and it is unanswered so far by our ancients, the question he asks upon seeing any chart is 'Why is this native given so and so Lagna in this life by God? First find out the answer to that question, it is the very basis of Astrology'. If you really ponder over this question for a long time like a Sage you would realise that it is an extremely Profound Question posed by mentor. We pondered over it for years & the technique presented below does not answer that question directly but hope so touches it slightly indirectly and makes mentor happy. One must not assume that the term Past Life Bhava is what the Bhava was in the past life; it (Bhrighu Bhava) means the most important Karma that would come from some life/lives into this Life.

Let us test this on few known & unknown charts

Chart 1: Sri Ram

Ve	Me Su AL		Ke
Ма		asi Ima	Mo Ju As
Ra		(Sa)	

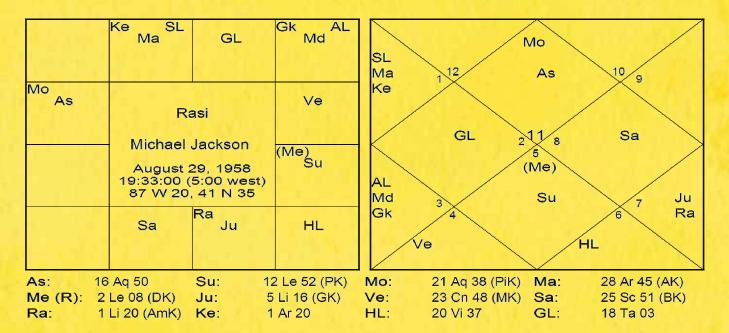

Note the sign it is Cancer (No 4), where Moon (Mother) and Jupiter dispositor of Rahu (Brahmin Asura) is sitting. This particular energy from the Asc sign will be carried to the No 4 Bhava of this chart which will be the Past Life House (PLH) or Bhrighu Bhava. This Brighu Bhava is in the 4H of throne & mother, 3rd from it is the house of step mother where Rahu (cheating) is situated, he got cheated out of his rightful heir ship to the throne by his step mother. Note the 8L of inheritance is also placed in the 4H of Bhrighu Bhava, the whole story of his life 'Started' due to inheritance issues and we astrologers know the importance of the 'Start Of An Issue' and how it dominates/re-writes the whole life of an individual. When Saturn gets associated with 4H or 4L there is 'chances' of step treatment in any signification of that bhava or step mother as Saturn gives the step factor in life is known by astrologers. So Saturn in 4H of Mother of Bhrighu Bhava shows some karma associated with step mother.

The next step is to see the Lord of this Bhrighu Bhava or Past Life House or Issues coming from past life and you will see that the lord is Venus placed in the 9H of marriage, father, king and Venus is karaka of woman. In all 4 areas woman, marriage, father, becoming a King he had major karma pending, do you see now how easily this can be seen, note the Past Life House and its lord and you get the major karma of Shri Ram. Another easy way to decipher this chart is, note the Bhrighu Bhava it is in the sign of Libra, which is balance and it was for Shri Ram to teach the noble act of the King always remaining balanced (throne issues) and note its lord Venus in 9H of father and bhagya and marriage, he showed to

Indians and established the Dharma of One Wife Dharma (in those days kings and men used to ahve many wives) and showed us the path of Dharma which Indians till today follow their actions (try to) in the footsteps of Shri Ram. He killed Ravana and established Dharma (BB lord in 9H) and he showed that the words of father & mother are always to be respected (BB in 4H & its lord in 9H) and thus gave up his kingdom.

Note the lord of PLH (Past Life House) is aspected by Jupiter the 6L of enemies and dispositor of Rahu (Ravana) and here also there was major karma pending and the cause of Shri Rams birth. Thus you can use Past Life House or Renaissance House or Bhrighu Bhava and see the 'Cause of Your Birth', 'Why you are born' in seconds if you are an expert astrologer. You will obviously not get the exact words to predict but the vibration of the soul for this life from this technique which so far no technique in Indian Astrology gives successfully.

Chart 2: MJ

The sign in the Asc Bhava is Aquarius which is 11 number sign, so go to 11H of achievement where the Sagittarius sign is sitting in the 11H of achievements which is his 'Past Life Bhava'. The duality of this sign is wherever this sign is placed in the chart of any individual one would find some 'Revolution' /Revolutionary Ideas' or if uncontrolled this sign destroys that house. Now come back to MJs chart, the lord of this 11H is Jupiter placed in the 9H of king (western astrology & Chandrakala nadi) in a Venusian Sign. This 9H contains Jupiter & Rahu both expansive planet and Rahu means international. This 9H is 4th (throne) from Venus (Music) and 3rd (singing) from Mars (3L of singing). Thus he became known as the King Of Pop.

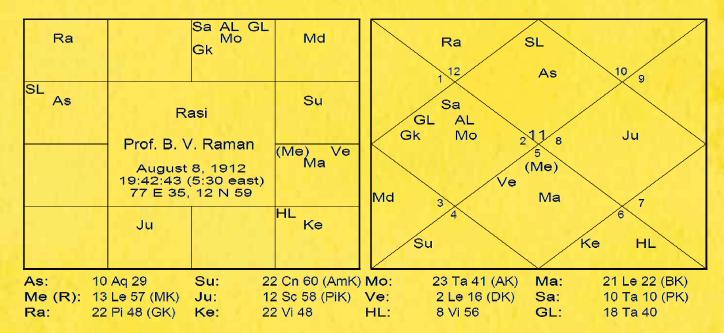

This 9H is also of father & has Rahu, so his father would be the cause of his fortune which was exactly the case, without his father he would not have achieved it. See 9H is also the house of mentor and it is with Dragons head - Rahu (cheating/break of relations) and his mentor Quincy Jones was also the cause of his great albums and the Dragons head thing happened between them. 9H is also the house of religion and over there the planet of religion Jupiter is sitting and Rahu (change) in Indian astrology shows Other Castes and particularly some astrologers use it to denote Muslims. Thus, Michael changed his religion to Islam and towards the end of his life was attracted towards Hinduism. Jupiter is also the significator of Children and Rahu denotes cheating and scandals, this is what happened in his life. 9H is the Resultant House of the 5H of love and children and he was so much in love with children. Dispositors dispositor is a technique that was revealed by Late J N Bhasin and here the dispositor of Jupiter is Venus (women) and it is in the 6H of divorce and legal settlements and loss of money (Venus). This part of the story everyone knows and need not be explained in detail. Thus you can see how this quick Snap Shot Of Life can be seen.

Now use BSP 14 a) & b), check the lord of this Past Life Bhava which is Jupiter and its relation with Moon and Arudha Lagna, from Moon it is again in the

Chart 3: B V Raman

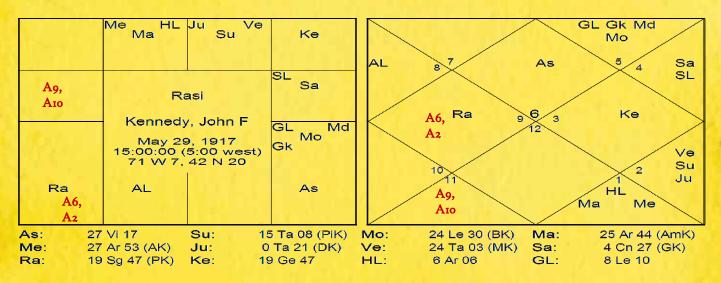

The Asc Bhava contains the sign of Aquarius, the sign of achievement and biggest hurdles and also the sign of Jyotish. The number in the Asc Bhava is II, so go to the IIH of the chart; it is again the house of Jyotish and the sign of Sagittarius. This is his Bhrighu Bhava. If you see our note above on MJs chart we mentioned that Sagi sign is the sign of Revolution and Dr B V Raman chartered the biggest revolution in Indian Astrology without coming from an 800-1000 year parampara. This Bhava is the Past Life Bhava as mentioned earlier and its lord Jupiter is in the 10H of Karma in the occult sign of

Scorpio aspected by a powerful Moon who is the 6L of competition & wars & the 12L of 'UnFinished Past Life Business' Saturn aspects the lord of Past Life Bhava Jupiter.

Thus you can decipher Dr Ramans Karma now as the lord of Past Life House shows his Karma (10H) of removing Jyotish out (Jupiter a graha of light in Sc) for the common man and making great predictions of war (Moon 6L) and crushing competition. Thus within a second an astute astrologer can decipher your karma in seconds with this BSP-14 technique.

Chart 4: JFK - John F Kennedy

The sign in the 1H is Virgo, the sign that Inspires Others let us not forget this. It is the 6th house in the natural zodiac and hence this sign signifies diseases and accidents. The 6H of the natural zodiac

also shows the back bone and you would know that JFK had a huge problem with back pain from an early age and had to be operated upon if we are not wrong. Now as the sign in Asc is Virgo, the number of it is 6, in order to find the 'Past Life Bhava' or 'Renaissance Bhava' you go to the 6H of natal chart of JFK. This 6H has A9 & A10, he was the King of the country. 6H is house of accidents, diseases (back pain) and the word used by Parasara is Sapatni which means mistress (Monroe and others). The lord of this Past Life Bhava is Saturn or Rahu. Saturn sits in the 11H of highest achievement and Rahu is more of a co-lord for Aquarius as in trine to it there are more planets and it has A6 (accidents) and A2 (family/speech) and Rahu is placed in 4H of vehicles, his death & speech are more famous and became the central part of his life for generations to come as he died whilst he was with family (A2) in a car (4H Rahu lord of Past Life Bhava) and Rahu means the assassin as explained in the editorial and he was assassinated.

Now this chart again purposely, Virgo is the sign, number 6, so go to 6H of chart which is the Past Life House of Kennedy and this 6H shows diseases and mistress, those were central to his life, then go to lord Rahu which is in 4H of vehicles with A2 (family) and A6 (accident), so you see in 2 secs that mistresses, health problems and death via assassins kind of Karma is coming from Past Life of this native.

The Key of the great astrologers that have been observed by us is he uses rare techniques but does not get lost with multiple techniques or observations that he sees in a chart, just keeps his Focus on what He Should See & forgets the rest momentarily, that either is inborn or comes through practice and if you are unfortunate to learn 1000 dasas in Kaliyuga you are doomed though it was not so 3000 years back when the intelligence level of humans was better in jyotish due to the type of training given in Gurukul & purity of student as well as Guru.

This is a chart it pains us to see as it involves someone we know whose sons chart this is. Note the sign it is Leo, which is the 5th house of the natural zodiac that shows one's mind. Now find out the Past Life House of the chart, as sign number in Asc is 5, so you go to 5H of this chart which has Sagi and thus it becomes the Past Life House of this chart. It contains the 6L Saturn (note retro) with A3 (short journey) and this Saturn is dispositor of Mars & Rahu (note this) and now remember BSP 14 d)

14 d) If for e.g. Asc is Virgo and the 6H of the chart is occupied or effected by hardcore fundamentalist malefics, it's not at all good – this is an unknown technique but very effective.

IH is brain and $6^{th}/7^{th}$ house is hip, more of 7H. The boy was on his bike (A₃) at the signal waiting for signal to turn green so that he could take a U turn, behind him came speeding car which banged him and

His Asc Lord Mer is in the 8H of chronic diseases with Mars hence back pain.

boy got major fractures in the hip region and as we write this (Nov 13th 2009) is in Coma (Saturn retro) since 13 days and the doctors having given up.

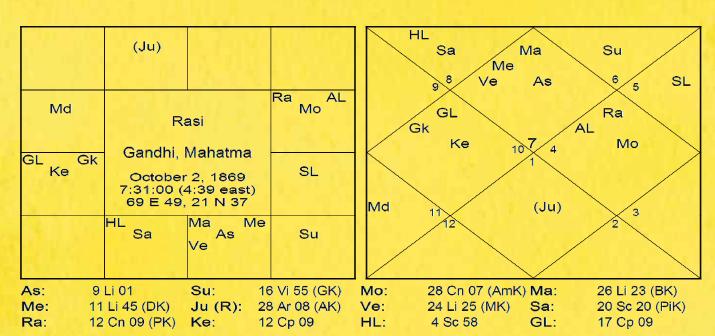

People have confused Moola Dasa to time Curses from past life which they earlier taught (but changed rule later) that when a planet is aspected by 2 malefics then that planet has a curse and Moola Dasa is to be used to time curses. But Varahamihira used to use Moola Dasa and our study has shown that Moola Dasa can be used for 'Everything' as earlier discussed in previous writings of Mentor No 3 with the Pandit of Trayambakeshwar wherein the Pandit laughed on what we call Moola Dasa and said there are 12/14 types of Moola Dasa.

Moola Dasa (dasa showing the root of events - past karma):

Mars MD /Rah AD: 2009-Sept-05 - 2009-Dec-12

The Mahadasha is Mars and the Antar Dasa is Rahu when the accident happened and native went in coma, you may note that the dispositor of these two planets Mars and Rahu is Saturn who is sitting in the Past Life Bhava. Do you see how powerful this technique is, ofcourse on dramatic charts where dramatic events happen most techniques seem to work and on charts which is life less all techniques do not seem to appear fascinating.

Chart 6: Mahatma Gandhi

Note the sign Libra rising in the Asc, whose symbol is Libra, Gandhi was a very balanced man but irrational in certain areas of life with his own mind (Mars Venus Mer in Asc). Note the number of the Asc Sign it is No 7, so go to the 7H of this chart which is the 'Bhrighu Bhava', which has 3L of writing, action and 6L of fighting Jupiter in the Past Life House of Aries (Leader). Now note Jupiter is a Brahmin Graha which is retrograde. So instead of raising weapons to fight the Britishers he developed his nuclear bomb called Satyagraha which meant non-cooperation movement and you can see how wisely (Jupiter) he implemented it. 6L of fighting in Past Life House, he was meant to fight, now fight whom is the question, against whom was he fighting and doing this Karma of Satyagraha. So now you see from which house does this Jupiter of Past Life Bhava become the Karma House (10th), it becomes so from Moon & Rahu, now who is this Moon (Queen of Planets) & Rahu (Foreigners) – was it against the British Empire, yes his Karma was against the British Empire. Do you now see the Power of this Past Life House and how beautifully it shows and unravels the reason why you are here, what you are going to do.

Now use BSP 14 c)

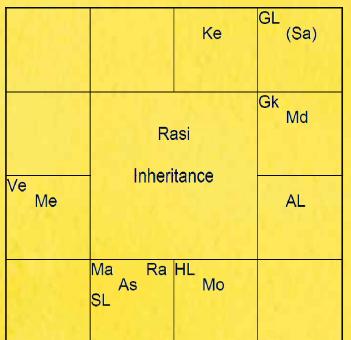

14 c) Note the association of this sign number house called 'Past Life House' or its lord from Moon Asc or the Arudha Lagna Asc

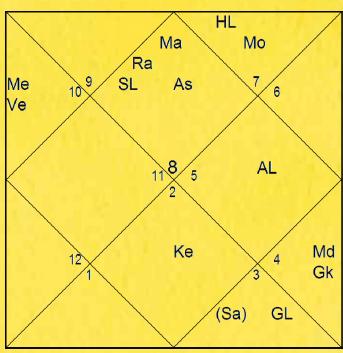

You can see that this Jupiter of Past Life Bhava which is in the 7H of Public Platform & Masses is in the 10th house of Father Status from Moon Asc and Arudha Asc, making it DOUBLY powerful and thus he is called the Father of the Nation. Most important is it is also in the 10th from Rahu, the planet of immortality, thus for time immemorial he will become and stay the Father of the Nation this was the Karma (10th from Rahu) that he brought in this life (via Past Life House).

Let's come back to Jupiter who is the 6L of fighting and revolt, now when 'All' can this Jupiter give result of the fighting that Gandhi is going to do is the next question. The age of Jupiter as you all know is 32 years plus minus 1-2 years for being retro. Now Gandhi returned from South Africa to India on 1915 and then started fighting the British Empire in India. So let's roughly add 1915 + 32 = 1947 which is the year when his fighting bore results and India got her freedom.

Readers can use the lord of Past Life House, Mars and see its association with other planets and come to major conclusion as to his fasting (2L Mars) and his method of driving the Britishers crazy and so on.

Chart 7: Friend

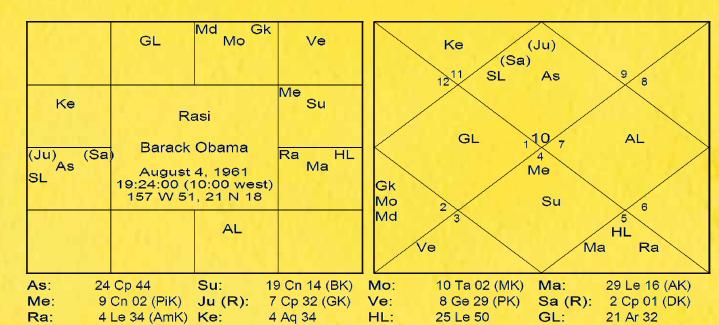

The chart belongs to someone who is in a Govt job and earning around Rs 20,000 per month (\$400). The native though now is doing fine but has deep scars of whole childhood going in poverty and all his actions are taking place due to these scars. His sister married a rich guy but ugly and when asked why she did so, she openly says due to his money and her husband also knows it that it's only due to his money she married.

When we saw this chart we saw the sign Sc in the Asc with Rahu (cheating) & Mars (land) in it. So we went to Past Life House and saw Saturn over there and retrograde and then saw this PLH (past life house) from Moon is in the 9th house of father. We did not predict but realized that native must not have gotten land property as we combined the Asc Sign and the Past Life House i.e. Rahu (cheating & grandfather) & Mars (land) with Saturn. The native on his own said that land worth some hundreds of crores (several million dollars) was not given to them and it was an inheritance issue (8H is house of inheritance where PLH is there) and it was due to his grandfather (Rahu) they got cheated (Rahu) of property (Mars) and it all went to natives fathers younger brother (IIL) which is Mercury and Mercury is the Lord of Gemini the Past Life House and also Mercury is karaka of relatives. Now the grandfather (rahu) died of paralysis, her uncle (Mer) died of cancer but still the property will not be equally shared among all, this is the Karma of Past Life House of this native.

Chart 8: Obama

Let us take a chart which is not easy to decipher and it took us a long time to decipher due to our inexperience. At the same time unless you keep it simple you can get lost in this chart or any other especially when the whole story is not known.

The sign in the Asc is Capricorn, the sign of Karma in Natural Zodiac and Father figure, which is what he has become. Note the number of Capricorn which is No 10 and go to the 10th House of the chart which becomes the Past Life House having Libra and AL (self coming out) and this house is the house of Karma and Father and Govt. Now Libra is a sign of balance and this is in the Past Life House, note this and think on it.

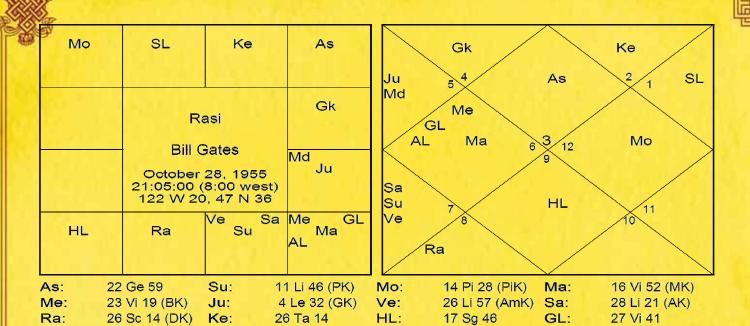

What is the need of the hour, it is to create balance (Libra) out of the imbalance in money (Venus) in the world today and that's the job of Obama not only in America but in the world as the American economy dominates the whole world. Then what is Libra, sign of just (balanced) relationships, it is need of the hour for America to stop doing measures by which terrorists have been indirectly breed and this violence that has emanated must be balanced, this is the Karma of the Past Life House of Obama. His Karma is to bring this balance in this world and though this is a philosophical statement but only after reading a lot of blogs and papers one can realize that this is what people hope out of Obama to bring that change (Venus is in Gemini the natural 3H of zodiac) and thus this Venus lord of the PLH in Gemini in 3H of zodiac which is the house of 'Unlocking of Karma' is what this man is expected to do, that's what the whole of America believes in him to perform to Unlock their Karma, Unwind the wrongs that America did in the past and make it all balanced (Libra) for that Obama has been sent.

As a side note, PLH lord Venus is in the 6H of fighting in the sign Gemini (writing & speech) and this Venus is also the lord of the 5H of authorship. Which means the Lord of the 5H of authorship Venus got activated and when he wrote something called father (Venus is 10L of PLH) his Karma got activated and he became the King (Mer is also 9L of King).

Chart 9: Bill Gates

This is a very simple chart to interpret the Bhrighu Bhava which comes in the 3H as the Asc is Gemini so we see the 3 No house in the chart which is in this case Leo. Bhrighu Bhava comes the sign Leo, the King. Now in the Renaissance House there is Jupiter who is the 7L of Public Limelight and Business & 10L of Profession and Jupiter is expansive but it is with Mandi. The 3H is associated with communications and computers and this Jupiter is in nakshatra of Ketu (karaka of software) and thus he created Microsoft and Windows and became famous and a King in that since it is the sign Leo.

Why famous since the Past Life House lord Sun is placed in 5h of fame with 8L Saturn and aspected by Rahu hence if he does anything hanky panky his organization will be split which is what happened. This dispositor of Renaissance House is conjunct a powerful Venus who is swagrahi and is the 12L of charity, so money gained out of this software project will also be donated by him and his wife (Venus) and more fame gained (5H).

Readers are requested to test this technique more aggressively first on famous charts and then on unknown charts and only then accept or reject it. May this technique be placed at the holy feet of Sage Bhrighu and Mentor.

Bhrighu Saral Paddati ~ 15 Graha Sutra Series - Shukra Reveals By

Saptarishis Astrology

Readership Level: Basic To Advanced

ne can, if one is honest to oneself observe after spending 50-60 years in astrology that somewhere down the line we have missed the basics and our understanding of grahas, rasis and houses is grossly incomplete. Modern trends in astrology make us delve deeper into 40-50 dasas, 20 divisional charts and 15 different lagnas but we miss seeing the most basic and apparent thing in a chart. It has been observed that if ones basics is good then one can make stunning predictions far superior than using so many dasas and thereby these basics helps us to understand 'What is happening in a Chart'. The Core Team of Saptarishis Astrology long back had realised that our own basics are very poor and decided to concentrate on it. In this endeavour we discovered details on grahas which we realised where not known even to the seasoned scholar or mentioned in classics. Below is an example of what we call Mota Mota Technique, which means a Broad-Broad methodology which need not be blindly applied but it shows us some special role of the graha that has been unrevealed by any parampara so far, when blindly applied it has worked on 50% of the chart straight away in a very easy manner, 30% in a bit complicated manner but for a seasoned astrologer it would not be called a complicated technique as he is used to complex methodologies & in 20 % of the cases it probably failed due to our own lack of understanding of basics. Ideally such techniques must not be openly revealed until the student has forgotten his chart, lost interest in mundane life but it is only being revealed so that one accepts that our understanding of Jyotisha is far limited, stops wasting his energy into finding 70 dasas or complicated methodologies and tries to dig deeper into understanding planets first as its the very foundation of astrology

One must also be warned about it that they must not take this for blind prediction but for understanding a newer aspect of the graha in this case Shukra – Venus as mostly astrologers worldwide associate with Venus only sensuousness, material life and money gain. The style of writing of this article is filmy so that readers don't forget the method & also a bit loosely constructed so that ones who do not follow the Jyotish Purusha rules may forget. This series is started with Venus as he is the son of the Sage Bhrighu on whose holy feet we submit this technique for more clarification before bowing to Lord Ganapati.

Graha Sutra Series - Shukra Reveals

Shukra -Venus says 'The house where I am given shelter or the lord I conjoin with or the lord of the house I represent will show where I can, I repeat I can & not will (100 %) contribute to the

- a) Medical expenses or Diseases
- b) At times Death
- c) Peeda (Dramatic Troubles)

He further says 'If I am in mood then the 12th from where I am placed could be hit by me & you would be forced to get the Sanjeevani (Miracle Herb) Bhuti for the problem but if my blessings are not there then you would not get it. All the above results will no doubt depend on other conditions but still would affect it out atleast mildly irrespective of the conditions'

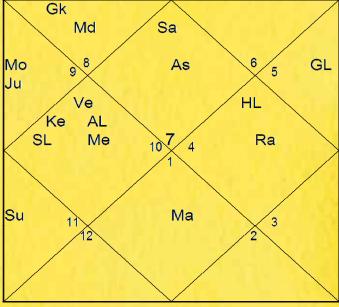

Let us recapitulate the conditions in BSP-15 as BSP-15a, BSP-15b & so on

- a) Observe the position house of Venus or the Lord it combines with and that lord's house ownership or the house Venus is lord of.
- b) This Venus will indicate the diseases or medical expenses that you would spend in this life.
- c) At times it can also indicate the nature of death.
- d) At times it can also indicate the 'Dramatic Troubles Peeda' that you would face in your life.
- e) Irrespective of the sign it is placed in whether of friend or enemy or exaltation or dispositor well or ill placed or nakshatra lord well or ill placed still this Venus can give results if it wishes.
- f) Venus can also afflict the 12th from it.
- g) Karakas in both cases of Venus and/or the conjoining lord must be used effectively.

Let us test these principles enumerated above on some charts bearing in mind that of a total of 24 charts only few are taken here which are exhibiting straight forward results for readers to understand. Would try to avoid nakshatra lordship in the explanation although it is a must to use it to understand this technique on complex charts.

Venus the 8th lord of chronic diseases is sitting in the 4H of 'Heart' along with surgery (Ketu) and hospitalization (Mer 12L). The dispositor of this Venus is exalted in a Sasa Mahapurusha Yoga still as per the promise of Venus he underwent a Heart Transplant in 1990s & died November 20, 2006 in Los Angeles of complications of cancer; he was 81. He had been diagnosed with the disease 18 months prior to his death. With a satirical eye for the American way of life and a stylistic naturalism, he delivered unique films, more than 30 movies by 1987. He had a history of minor features and TV work behind him when M.A.S.H. established his reputation. Thus you can see that BSP-15a can give you an instant idea to double check heart diseases if Venus is found in the 4H if other factors support.

Both eyes are represented in general by 2H and its lord Sun (good sun shows good eyes) is with exalted Venus so shouldn't it give great eyesight and that too when Venus is in its exaltation degree, so how come he went blind suddenly in the middle of a performance at La Scala in 1913 & never recovered his sight. One can say that this Sun-Venus combo is in the 8th from 2H of eyes but that's just one point & not enough to give such dramatic results, but if you use Venus rule of Sage Bhrighu, then you can see that Venus has given him blindness. Venus in Indian mythology became blind (remember Bali episode).

From parasari angle, 6L of disease Jupiter is sitting in the 2nd sign of Taurus which signifies Eyes & also Venus is dispositor of A6 (disease), A8 (chronic) & A2 (eyes).

Italian tenor opera singer and teacher, noted for his renditions of Wagner. He made a debut at Castelfranco Veneto in 1893. Borgatti died 18-Oct-1950, Milan, Italy.

Chart 3: Adelman, Kenneth Lee - American Govt Official.

Venus is placed in the 11H (the resultant house of disease) along with Mercury which signifies skin. Thus you can see that this Venus has given him Chronic Eczema thus his medical expenses went this way as per BSP-15 b.

American government official, appointed in January 1983 by President Reagan as Director of the U.S. Arms Control and Disarmament Agency, a nomination rejected by the Foreign Relations Committee. Adelman had served in several government capacities, was a senior political scientist with the Stanford Research Institute, and authored a book, "African Realities."

British politician, a Member of Parliament returned at the General Election of 11th June 1987. A respected politician who attained the post of Chief Secretary to the Treasury, he was subjected to allegations by the Guardian publications of traveling down a dark road of concealment, deceit, perversion and finally, perjury. He responded with a defamation suit and a fight that lasted 3 1/2 years before he was brought to justice. He declared insolvency to his creditors and on 10th May 1999, declared bankruptcy. Jonathan Aitken was sentenced to 18 months prison on 08th June 1999.

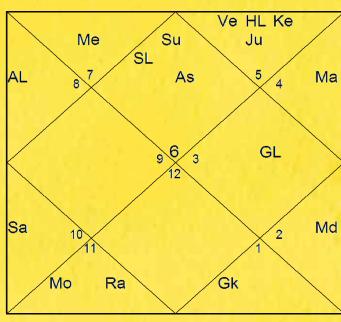

Chart 5: West, Dottie - American Country Western Singer.

American country-western singer, composer and songwriter. She is known for "Would You Hold It Against Me" and "Paper Mansions" along with many famous duets with Kenny Rogers, Jim Reeves and other noted singers. Big-hearted and caring, she helped many new artists get ahead.

You can see that Venus is in the 12H of hospitalization & being bed ridden and as per BSP-15 represents diseases & medical bills; it is with Jupiter (Liver) and Ketu (surgery).

Around late June or early July 1991, she was hospitalized for several days after a traffic accident she had while exiting the driveway to her apartment complex. Then, on 31st Aug 1991, while being driven to perform at the Grand Ole Opry by a neighbour, George Thackston, 80, the car he was driving went out of control just before 8:00 P.M. on a Nashville parkway's elevated exit ramp.

Ve: HL: Italian industrialist, the head of Fiat since 1966, an auto empire established by grandfather, Giovanni.

The chart owner Agnelli, Giovanni died of Prostate Cancer. His father, Edoardo, died in an airplane

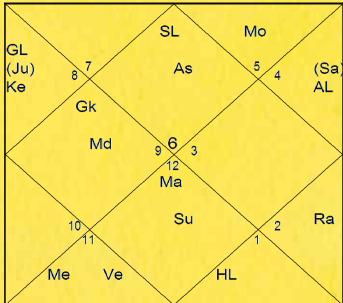

Diverting here from our said technique, his father and mothers fate can be seen with Venus Ketu in the 5H (maraka for mother) & 8th from 10H of father and Jupiter Saturn together (previous BSP method of Aries spoilt), which means 8th from 10H of father and 9th (bhagya-also end) from 9th house of father.

accident in 1935 and his mother, Virginia, died in an auto accident in November 1945.

Now let's revisit the chart owner who died of Prostate Cancer. First use previous Bhrighu rule Saturn Jupiter Together, Aries is destroyed, see it working here Aries is where Venus is placed and you would only require Sanjeevani Bhuti (life reviving herb mentioned in Ramayana) for it. As you know whenever Aries is destroyed the physical health of the native is destroyed and there is a dramatic disease (basics of Natural Zodiac horoscopy - Kala Purusha horoscopy). He suffered from prostate cancer which is near the rectum which is an 8H matter or 8th sign that is Scorpio disorder, the lord of it is Mars or Ketu. See now Mars is with Moon the 8th lord and the other co-lord Ketu is with Venus in Aries sign. He is unfortunately attacked from all angles and from Sc (prostate) the 6th house of disease is where Venus (BSP-15) and Ketu (incurable disease) is present, so Prostate Cancer. He died of Prostate Cancer on 24th Jan 2003 when Moola Dasa of Rahu/Sat/Ven (see) was running and Vim Dasa of Jup/Ketu/Jup - see Ketu's role is already established with Ketu Venus together and Ketu being the lord of Sc, Jupiter is retro and goes to 8H of prostate thereby aspects Sc.

Venus is in the 6H of accidents along with Lagna Lord and the chart is of an Italian fatality, killed in a plane crash in bad weather o6th July 1986; survived by a wife and two kids. By Parasari Venus is 2nd maraca lord but it is so difficult to determine who is maraca in each lagna though previous authors have sounded it off as an easy task.

Chart 8: Almond, Marc - British Entertainer

British entertainer, the flamboyant homosexual singer of the '80's band, "Soft Cell." Teamed with Dave Ball, Anthony gained a cult following with hits like "Tainted Love," which went to No.1 in August 1981, and "Say Hello, Wave Goodbye," 1982.

Use BSP-15 instantly and you can see that Venus (cars) is in the 2nd house of maraca with Mars (speedy cars & accidents) and thus on October 17, 2004, the British singer sustained severe injuries when the motorcycle on which he was a passenger crashed into a car in London. Almond underwent surgery and is expected to make a full recovery.

At 23 he was struck down overnight by ankylosing spondylitis, a kind of acute rheumatism. 23 as per Bhrighu Chakra Paddathi (BCP) means 11H where Venus (BSP-15) is with Asc Lord, Moon so body problem can be anticipated as per BSP-15 and that is what happened to him. After a year flat on his back, he joined a mystery school and moved into his life position of being a mystic, a philosopher and a mathematician. A permanent cripple with calcified spine, he walked with canes. His best known work is Harmonics In Astrology and a great contribution to western astrology is

what we are told, as you can see After the 23rd year got activated in BCP and thus Venus also got activated as per BSP-15, the Venus did what it does best, Shukracharya (Venus) does Jyotish especially since it is in the 11H of astrology. Note the Amk & PK great combo in the 11H of astrology. http://en.wikipedia.org/wiki/John_Addey_%28astrologer%29.

Earlier we did mention not to ignore nakshatra lordship but have avoided using it in order to keep the Kiss principle, the above chart owner suffered rheumatism, some take Saturn as the karaka for rheumatism for various reasons, one logic given is as it sets mainly in most cases in the old age it is signified by Saturn who is old. Chart 10: Black, Shirley Temple - American Actress

American actress, child actress, the most famous in history from age three, and politician. She made films from 1932-1950, avoiding the usual downfalls of self-destruction or pretension. Her films included "Little Miss Marker," "Heidi" and "Curley Top." She left an archive of 40 films and 50 one-hour TV shows.

In 11/1972, she survived the upset of breast cancer and had a radical mastectomy. 4H is the house of breasts and 2nd from it is the maraca house that is 5H where in her chart Venus is sitting. No doubt with normal parasari one can see that 6L of diseases Mars is placed in the 4H of breasts so she would get some disease re breasts. If you do not want to use the maraca of the 4H and want to see the disease to

the breasts then use BSP-15f and Venus sitting in the 5H will affect its results to the 12th from it which is the 4H of breasts giving her breast cancer.

His time of birth gets a suspect C rating by Roddens. Now see Venus is placed in the sign of Virgo which is the natural 6th house of servants and subordinates. Here we stick with Basil Ferrington reported time of birth. Even if one does not accept that Venus will still remain in the sign of Cancer which is the 4H of heart and house in the natural zodiac and the reports in press indicate that he died of cardiac arrest at his house (note that Rahu is in the 4H from this Venus and later one BSP method of Rahu will be written in future volumes).

It does not mean that all with Venus in the sign of cancer will die at home or of cardiac arrest since some other stronger graha will take over, this is the key of astrology 'Who is Stronger of Grahas To Dominate and take the cake and eat it too'.

Chart 13: Paramhansa Yogananda - How Death Will Happen

Astro data bank takes 20.38 as the time of birth with this note 'Mercury Hour, 7/1976, quotes his ashram, the Self Realization Institute. (Gorakhpur is on Madras time. As it is 3 degrees 7 min east of Madras, the correction of Gorakhpur to Madras is 12 min 28 sec plus, making the time 20:50 LMT. If the LMT correction had already been made, the original Madras time would have been 20:26 LMT. We are perhaps safest in assuming that the time as given is LMT.) In that case the lagna degree would be 6Le36, as we are concerned with the Rasi chart where Venus is in the 4H of heart and house & as per BSP 15 this 'Can' be the cause of death. This is on the assumption that the chart is correct, a chart can be wrong in an article and scholars can spend lifetimes debating it whereas we as students of this science should be concerned with the underlying principles accuracy, in this context the BSP-15. Now as per Wikipedia, 'On March 7, 1952, he attended a dinner for the visiting Indian Ambassador to the U.S., Binay Ranjan Sen and his wife at the Biltmore Hotel in Los Angeles. At the conclusion of the banquet Yogananda spoke of India and America, their contributions to world peace and human progress, and

their future cooperation, expressing his hope for a "United World" that would combine the best qualities of "efficient America" and "spiritual India."

According to two eyewitnesses—long-time disciples Swami Kriyananda and Daya Mata—as Yogananda ended his speech, he read from his poem *My India*, concluding with the words "Where Ganges, woods, Himalayan caves, and men dream God—I am hallowed; my body touched that sod". At the very last words, he slid to the floor, dead *from a heart attack*. Kriyananda wrote that Yogananda had once stated in a lecture, "A heart attack is the easiest way to die. That is how I choose to die." On March 7, 1952 he was running the Kalachakra dasa of Sc where Venus is placed and Moola Dasa of Venus.

Lets quickly divert and remind readers of Bhrighu Chakra Paddati, he died in his 60th year which is 12H as per BCP and its lord is Moon in Asc which means 12L of death on Self (asc) which is what happened and being Moon who is the natural 4th lord of zodiac -shows quick and 4H is heart, that's how it happened.

Use this Venus principle as an exercise for complicated astro methods on the chart of JFK, see where Venus is, then see if it is the 3L of travelling, no it is not, then see if it is 3L from Moon Asc and sitting at 9H is it looking at 3H of travel, then see 3rd from this Venus is there Saturn and is this Venus with Jupiter, did he die in Jup/Saturn dasa. Then use another BSP principle that Andree wrote in previous issue of Jup Saturn together one thing in Aries is spoilt and use this technique on Dasa of Jup MD-Sat AD, put that into practice and you would see that Aries will be effected to some extent whenever Jup/Sat or Sat/Jup combos come in dasa and here in JFK case you would see that Aries is the 8H of longevity where 3L Mars is placed who is lord of travelling and bullet along with body lord (Asc Lord) Mer. Also note that Jup & Saturn aspect the 5H of children where A8 (death) is also there and see the link.

Thus it is requested for readers to kindly test this method more blindly at first to verify a chart where events are known and the chart is 60 plus in age and then use it more effectively. When this technique was shared with mentor he instantly said he knows a chart where Venus is in the 2H and the person has eye problems and then we discussed the chart of a famous elderly astrologer writer who has Venus in the 1H along with Mars the 2nd lord and 7th lord, he has problem of diabetes, Venus signifies sweet things and he eats pan - a sweet chewing product made in India. His Venus is with 7L and he is not married & always strained relations with people (being factual and not derogatory here), thereby showing the BSP-15 d principle of Peeda – Dramatic Troubles for the 7H. With obeisance to Sage Bhrighu and mentor who always inspires us to go into those areas where others have not gone before and be ready to face disappointments too, we dedicate this work to beloved mentor.

Kumara Swamiyam - 4

The Most Ancient Tamil Classic

Translated

amil is one of the most ancient Indian languages & there are many classical Jyotisha secrets in Tamil literature that cannot be found elsewhere Indian languages. One such is 'KumaraSwamiyam' & many scholars given it the highest pedestal attributing their phenomenal predictions to this classic. In Tamil language, Kumaraswami means Lord Muruga son of Lord Shiva. Initially Lord Shiva is telling astrology to Lord Muruga here & he in return passes it on to Rishi Agasthiyar (Agasyta) that our current deeds are based on past karma.

In the translation assignment, this author has striven very hard to give below the best possible translation from his knowledge & trust many will agree. If they have some corrections/suggestions on the same, they can contact us. One will appreciate & understand how difficult it is to translate from a traditional epic given in poetic Tamil of good olden days, into modern Tamil and then into English. It is a very painstaking job that deserves accolades.

Stars as Friends or Foes (beneficial or inimical), Relative panjapatchi, kendantham & Widowhood

Moola, Pushyami, Hasta, Rohini, Revati, Sravana, Uttarabhadra & Aridra are mutual Friends & their influence on each other are mutually beneficial. Hostility exists between Jyeshta & Bharani, Anuradha & Krittika, Visakha & Rohini, Swati & Mrigasira, Dhanishta & Aridra, Sravana & Punarvasu, Uttarashada & Pushyami, Poorvashada and Aslesha, Revati & Makha, Uttarabhadra & Pubba, Poorvabhadra & Uttara, Satabhisha and Hasta.

Chitta (Chitra) & Moola are hostile towards Aswini. Aswini & Moola are hostile towards Chitta, Aswini & Chitta are hostile towards Moola.

Owl - Aridra, Punarvasu, Pushyami, Aslesha, Makha & Pubba belong to Owl, Crow - Uttara, Hasta, Chitta, Swati & Visakha belong to Crow, Cock - Anuradha, Jyeshta, Moola, Poorvashada, Uttarashada & Sravana belong to Cock, Peacock - Dhanishta, Satabhisha, Poorvabhadra, Uttarabhadra & Revati belong to Pea cock, Royal Falcon - Aswini, Bharani, Krittika, Rohini & Mrigasira belong to Royal Falcon,

The first quarter of Aswini, Makha & Moola and fourth quarter of Aslesha, Jyeshta and Revati in Kendantham¹ and Punarvasu is a widow star.

Thereby, the planets deposited at these places lose their originality. Therefore, the fourth quarter of Revati is certainly representing Kendantha. This can be substantiated with the Shloka I.22 of Jataka Parijata which runs as "Katak ali Meenamantham pragandanthamith prasiddham" Here, 'Meenamantham' signifies the fourth quarter of Revati. Of course, the word

Copy Editor: 'Kandantham' literally means "end of the piece / compartment". Because, 'Kanda' in sanskrit means a compartment / section / piece and 'antham' means 'end' / 'final'. As we know, in Vedic Astrology, the entire zodiac is classified as three compartments as below: Aries to Cancer (carries one complete cycle of 9 stars) Leo to Scorpion (carries one complete cycle of 9 stars) Sagittarius to Pisces (carries one complete cycle of 9 stars). The starting and ending points of these signs are identified in terms of Nakshatra Padas/Charanas and known as Kandanthas. Therefore, the starting points of Aries, Leo and Sagittarius viz. the first quarter of Ashwini, Magha and Moola respectively (all owned by Ketu). Similarly, the ending points of Cancer, Scorpion and Pisces are the fourth quarter of Ashlesha, Jyeshta and Revati respectively (all are owned by Mercury). These points, (i.e. Kandantha Stars) are considered as weak based on the following points:

(i) They are situated in Riksha Sandhi i.e. at junctional points of natural zodiac. (ii) They are representing the confluence of mutually conflicting 'pancha bhutas', viz. water and fire. i.e. Pisces vs Aries, Cancer vs Leo, Scorpion vs Sagittarius.

^{&#}x27;pragandantha' represents here as 'the end of the elbow'. But, in the context of 'a vulnerable part or a critical period' only. In consummate, I consider the usage of Revati as a Kandantha Star is quite logical.

Publisher: It is very difficult for anyone to write a commentary on this most ancient of classic work, so the following is just an assumption. See we asked someone who has Swati as birth nakshatra if he likes cotton he said no but after he gets a job he only wants to wear cotton his whole life, he said this is his passion since long. We know of a native whose birth star is Purvaphalgnui (Pubba) and Kumaraswamiyam says for Pubba it is an empty house, this native loves to live alone – that is his passion.

It is horse stable, for Poorvashada it is terrace, for Uttarashada it is place where dhobi Washes clothes for Sravana it is place of worship (temple), for Dhanishta it is factory (inferred to be crushing factory) for Satabhisha it is oil press, for Poorvabhadra it is street, For Uttarabhadra it is fire yard, and for Revati it is flower garden. Bhrighu Pada Dasa System - L Leaf of Bhrighu Maharishi By Dr K.P. Vaani, India Readership Level: Advanced

By Divine grace of my Guruji Dr. Naresh, Chandigarh and under able guidance of Shri A.V.Sundaram I'm here presenting basic treatise on "Pada Dasa System of Timing" timing events of native's life with Bhrigu cycle of the planets.

There are various predictive tools available in Jyotish. Among them Bhrigu Maharishi's Pada Dasa is an important technique for predicting or timing an event. But this method is not practiced for

want of proper information for application which is due to non availability of literature, article or texts.

Recently in ICAS-Secunderabad chapter Nadi Course on different levels was conducted under able co-ordination of Shri A.V.Sundaram an eminent Nadi Researcher and National Joint Secretary – ICAS. In the course of the study, Bhrigu Pada dasas were extensively worked out. I am thankful to the authors/speakers especially Shri Tejan Bose who contributed in Bhrighu Pada System.

To begin with we must find the Arudha Pada of the houses. Arudha Pada also called as "Pada" and means "Mount" and refers to the image of a sign falling on another due to reflection of the rays emanating from it and being reflected by its lord.

Computation Of Arudha Padas

Arudha Pada is obtained by counting the number of the houses, the house lord had moved away from that particular house in question. The house so obtained will be the "Arudha" for that house under consideration.

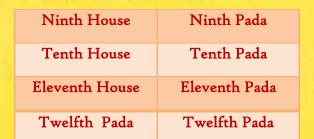

For example the pada of the ascendant will correspond to the sign arrived by counting the number of signs from the ascendant lord ahead from ascendant.

Similarly the padas for 12 bhavas or houses should be computed from the placement of house lord or lord away from the house.

Therefore the 12 Padas arrived from 12 houses can be termed as follows shown in the Table.1.

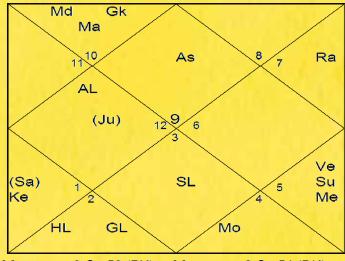

House	Pada
First House	Lagna Pada
Second House	Second Pada
Third House	Third Pada
Fourth House	Fourth Pada
Fifth House	Fifth Pada
Sixth House	Sixth Pada
Seventh House	Seventh Pada
Eighth House	Eighth Pada

Exceptions To Rules :

I. If the lord of the house is in the same house the 10th house in question there from can be treated as its pada. ex. In the above chart, 9th lord is sun in its own house, Simha, therefore the 9th pada falls in the 10th house from Simha, i.e. Vrishaba.

2. If the lord of the house is in the 7th, pada falls in the opposite house but being Kendra, pada falls in 10th house from the said house. ,ex. Cancer lagna, the lagna lord falls in the seventh (Makara),then lagna pada falls in cancer, which is Kendra, hence it should again be shifted to 10th from it i.e. Mesha.

- 3. If the lord of the bhava is in the 4th from bhava, then the pada falls in the 7th, since it is Kendra, it should again be shifted to 10th.Ex. Vrishabha Lagna, LL is in 4th house (Simha), then lagna pada falls in Vrischika, which is again Kendra, hence it should be shifted to 10th from it, i.e. Simha again.
- 4. If the lord of the bhava falls in the 10 th bhava from its place, then the pada falls in the 4th bhava in question. Ex. Sagittarius Lagna, Mars is the 5th lord, posited in Makara (10th) therefore the 5th pada falls in the 10th from makara i.e. Thula, which is Kendra hence pada is shifted again to 10th from Thula which is Cancer thus finally being 4th from Mesha (bhava in question).

As per Vedic texts any event in an individual's life will fructify as per the promise in the natal chart during the dasas and gochara but as per Bhrigu Pada Dasa Technique the event will occur when the Pada lord will transit the particular house at that particular age of the life.

This pada dasa system of Bhrigu Maharishi's corresponds almost to the Metonic cycle of planets which refers to the return of the planets to the same position of the Zodiac with respect to the fixed star. Dasa Periods of the planets are derived as per the periodic revolutions made in the Zodiac to come back to the exact position of the star.

Now that the periods allotted to the planets or the pada lords are seen as above in the table. Thus the event will be assessed when the pada lords are transiting the sign with the padas. The procedure for confirming of the event through the pada dasa system using this Metonic cycle of period is as follows.

- From the natal chart compute the 12 padas for 12 houses.
- List out the pada lords.
- To time any event, calculate the present age of the native.
- ❖ Also list out the house lords, padas and pada lords related to the particular event.
- * Then find out the dasa period of the pada lords related to the particular event.
- * Finally event will be timed when these pada lords at that particular age will be

influencing the house, house lord, pada and the karaka.

Some Principles Involved In Timing Of Event

- ❖ Dasa Period of pada lord is directly involved with the event.
- ❖ Bhrigu system of astrology gives maximum importance to Kendra/Trikonas. Thus whenever the pada lords are in trine or kendra to the house lords/house or crossing the house, then the events will be fructified.{ Kendra-Self effort, Trines-Fate}
- ❖ Lagna pada signifies protection; it will try to protect the native from total effects.

Ex. To time the marriage event for a native, the following should be analyzed.:

House - Lagna, 7 House

House lords - Lagna lord, 7th lord

Pada lords - Pada lord of Lagna lord, Pada lord of 7th lord

Present age of the native.

Dasa Periods of pada lords influencing Lagna, Lagna lord, and 7th house, 7th lord

Event will occur when the pada lords during their dasas will influence the houses, house lords and karaka by moving over them or in trines to them.

In the chart given below we will discuss marriage event

For Example: Chart A: Sep-10-1939, 2.20 P.M. Madras

Predicting the marriage as per information given above:

For the marriage event to occur the pad lords of Lagna lord (LL), and 7^{th} lord (7^{L}) should influence these parameters (L, LL, 7^{H} , 7^{L} ,Karaka) during their dasa periods.

Lagna: Mars as pada lord of 2P (Kutumbh), 8P (Marriage contract) is moving over lagna, and is in Kendra to seventh house directly influencing the native for the marriage to occur at 27^{Y} 07^{M} 25^{D}

Lagna Lord: is influenced by the mercury, pada lord of 3P and 11th pada and the seventh lord crossing over lagna lord and also over lagna pada and 12th pada at marriageable age of 27^Y o7^M 25^D

Seventh House: At 27^Y o7^M 25^D, Jupiter the pada lord of lagna lord is moving through seventh house in Kendra to lagna, lagna lord, thereby making the marriage to occur.

Seventh Lord: Venus the pada lord of the 7th pada is directly causing the event by moving over the seventh lord and natal Venus which is also the karaka for marriage is also directly influenced by Venus, karaka for marriage moving over it.

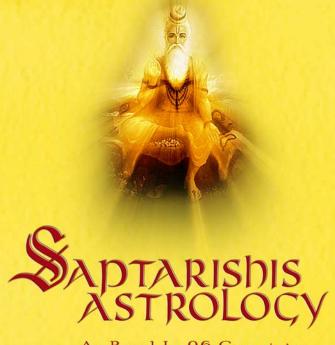

Conclusion:

Therefore it can be concluded that pada lord are very vital in Bhrigu Pada system of timing the event. The pada lords during its dasa period will make the event to occur by directly influencing through its movement over the house or the house lords.

Saptarishis Astrology Update

n the auspicious occasion of Datta Jayanti (1st Dec 2009), the day of Lord Dattatreya who is considered the Guru of Gurus and a Guru avatar of Brahma, Vishnu, Maheshwara, this issue of the magazine which is a 922 odd page volume is being placed at the holy feet of Late Shri C.S.Patel who started the movement of removing rare shlokas from unknown manuscripts and presenting it in english for the benefit of the astrological world and hope that the injustice done to him by publishers of magazines and books at that time is healed to some extent now. By honoring such a gifted soul who did not have any guru or parampara or organisation or great money behind him one only exemplifies that even you can also become a C.S.Patel of Jyotish if you work honestly without craving for position, money or fame but have true concern of helping the jyotish community and not just for name sake.

This issue has been the one where maximum work has gone and one hopes that the readers of the magazine enjoy it as much as the extreme hard work that has gone into it by the volunteers, writers and team members. Though there has been more than 2 months delay in getting this out due to various factors of administration, it is sufficiently big around 930 pages for readers to mull over it minutely for the next 6-9 months. The only difference would be a new entrant would finish reading this issue within a month whereas a true seeker would spend few years trying to find the meaning of each shloka presented and testing the various techniques presented. Each one of you including the new entrants are requested to mull on it for years and to test each technique aggressively. Our vision is not to be seen every month or every 3 months but to remove the hidden knowledge and manuscripts out as it is felt that today we practice or teach astrology after just 10-20 years of learning without having read all the available material on astrology, this is Un-Shastriac and a practice that must be stopped by us only (complete jyotish community). To translate and hunt manuscripts it takes time and hence would like to come out either once or twice a year and concentrate on travelling over interiors of India with our limited resources. Hence once again a change in policy must be mentioned wherein the next probable date of release could be June-July 2010.

BSPs

lso one of the significant reasons behind this development is with the resources at hand it's become a bit tougher and we would rather concentrate on writing on Bhrighu Saral Paddathis and make some steps towards finishing the Rishi Debt that the jyotish community is needed to do. As of now there are 300 Bhrighu Saral Paddathis out of which we have received (for the lack of a better word) around 60, out of which more than 15 are lost by us due to not noting it down properly & memory issues, but the rest of it must be aggressively tested and as quickly as possible written in article form for you all to test it further and understand what the technique is saying and most important what it is not saying. Even if we present 2 BSPs in an issue, in this lifetime we would not cover the complete 300 hence in this issue many are given. There is a specific methodology that is not mentioned in all Bhrighu Saral Paddathis articles which is the key to 'How to use it'. This is difficult to explain in written form but if you constantly use it then you would get the Master Key yourself of how to use it more and more effectively, after 18 months of constant use you would surely reach at a much higher level than even what we have attained. But one must not forget that to use BSPs the rules of Jyotisha Purusha need to be followed otherwise failure in ones usage will surely result, this is what has been written and observed.

We request more translators, typists, proof readers, Sanskrit scholars, english language editors to come forward as there is a dearth of them especially the ones who can selflessly do this for the future generations. Even a work like typing an article or manuscript is not considered low status volunteer work and infact we here at Saptarishis Astrology have the highest regard for those who do it. These are far bigger than the gurus of today. The amount of manuscripts and old works lying with us is so much that one only worries as to when it would come out for everyone since today there is truly a lack of quality information for Jyotishis and to bridge that gap would take centuries hence our hurry in creating such big volumes. The next issue which would be the 2nd Anniversary Issue would be dedicated to volunteers, translators, authors and copy editors of the magazine. For the Anniversary Issue we invite letters from all to express their criticism or appreciation for the articles presented so far which would be published in the Anniversary Issue.

Chapter 5

Renunciation

Arjuna's Doubt

rjuna is now confused and asks Shri Krishna. "First you told me to give up actions and now you are insisting on actions. (5:2). Which of the two paths is better?" (5:6)

Karmayoga & Karmasanyas Are Same In Effect

Shri Krishna said, "Both Karmasanyasa (renouncing actions) and Karmayoga (performing actions without desire for fruits) lead to liberation. But it would appear that Karmayoga is *clearer* and easier to follow for big and small. If one thinks carefully then it would be clear that the fruits of *Karmasanyasa* are also gained automatically through this path. I shall now tell you the qualities of a *sanyasi* and then you will realise that both paths are the same. (5:14-18).

Qualities Of A Sanyasi

A sanyasi does not grieve about his gains or losses and does not crave for what he has not received. His mind is steady as a mountain. He does not at all have feelings in his mind about "me" and "mine". Such a person is forever a renunciate (sanyasi). In this state of his mind he is dissociated from the fruits of actions and he is ever

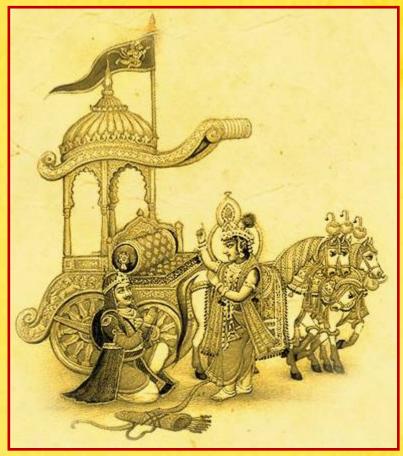

happy. Such a person does not have to leave his home, family and possessions to become a sanyasi because he is already dissociated from desires in his mind. (5:19-22). He whose intellect is free from desires does not get caught in the bindings of the actions. A person attains the qualities of a sanyasi (renunciate) only when desires are given up. Therefore both Karmasanyasa (renouncing actions) and Karmayoga (performing actions without desire for fruits) are the same. (5:23-25). Only ignorant persons think that the two (i.e. Jnyanayoga of the Sankhyas and Karmayoga) are different but those who have experienced Self know that they are not different. (5:26-28). One who follows the Yoga path attains very soon the bliss of the Brahman but one who cannot succeed in it wastes his efforts and cannot be a real renunciate. (5:32-33).

Attitude Of A Non-Doer Is Necessary

person who has kept his mind free of delusion and by purifying it with the help of Guru's mantra merged it in the Self, becomes the Self. (5:34). A person who, after

getting rid of desires, has become consciousness (Brahman) itself, pervades the expanse of the three worlds (i.e. heaven, earth and the nether) through the form of the Self, even by being at one place. (5:36). For such a person language like "This is done by me" or "I want to do this" becomes redundant and he remains a non-doer in spite of his actions. Because such a person is not even conscious of his body even though his outward behaviour and his bodily functions appear to be normal. Then how can he have the ego about his actions? (5:37-38).

When we think about the Almighty God we see that the all-pervading God is apparently a non-doer. He creates this expanse of the three worlds but He does not get involved with these actions even if you call Him a doer. He raises populations of creatures from the five

elements (earth, water, air, fire and sky or space. See note at the end of the Chapter) and He is in all, but belongs to none. In fact He is not even aware about the creation and destruction of the world. (5:76-79). He assumes form by taking birth but His formlessness is not affected. Therefore to say that He creates, maintains and destroys is rooted in ignorance. (5:81-82).

When this ignorance is totally destroyed then delusion goes and non-doing nature of God becomes clear. Once a person is convinced in his mind that God is a non-doer then the fundamental idea that "He is not different from me" is naturally established. Once this sense has arisen in the mind then he does not see himself different from anything in the three worlds and considers the world to be as liberated as he is. (5:83-85). Such persons have a sense of equability towards everything in this world, (5:88). Such men of Knowledge do not

壨

notice differences between different creatures. (5:93-95). Listen now to the characteristics of the person who possesses this sense of equability. (5:102).

Indifference To Success Or Failure

ne who is not affected by the success or failure (or gains and losses) of his actions is a person with sense of equability. He is the Brahman personified. (5:103-104). Due to the limitless internal bliss of the Self he is not attracted towards the external worldly pleasures. (5:105-106). It is only those who have not experienced this internal bliss that are attracted towards the impermanent worldly pleasures. (5:110). The pleasures of the sense-objects are actually miseries from the beginning to the end but ignorant people cannot do without them. (5:120). It is these people who are addicted to the sense pleasures that have given the appearance of truth to this worldly delusion of Maya. (5:126).

Persons who have controlled passions totally are not at all aware of the sorrows born out of sense-pleasures. (5:129). They are internally filled with bliss. But their way of enjoying that bliss is unusual. They are not aware that they are the enjoyers because they are in a state of egolessness and oneness with the Supreme. (5:131-133). This Bliss of the Self is the best, is indestructible and limitless. Only the desireless persons are worthy of it. (5:146). If you ask how these persons reached this stage while still living, it is because first they give up the pleasures with dispassion and concentrating at the point in between the eyebrows and while controlling the breath (*Pranayama*), they meditate with their eyes turned backwards. (5:151-153). Thus their mind turns inwards and through the state of *samadhi* they take the life-force and the mind upwards towards the experience of Brahman. When mind dissolves all desires and ego also dissolves. Therefore he who experiences the bliss becomes one with Brahman while still living. (5:155-157).

He is considered one of the foremost authorities on Lal Kitab alive today.

his section titled Saptarishis Astrology Remedies that was announced in the last issue will be a regular section in each issue of Saptarishis Astrology. Albeit for this C S Patel Manuscript Centric Issue, we have dropped all regular sections to accommodate the manuscripts translations done by earnest scholars. This section will be presented as readers are eagerly waiting for remedies from a long time. I have taken up a few cases of the numerous cases with an intent to highlight specific atypical points in the chart / hand so that even scholars can benefit from this analysis. Some readers have sent low quality hand pictures which are not readable and hence dropped from this section. Readers are humbly requested to send high resolution pictures for clarity. If the case is unique then we may also contact readers in different net forums to benefit the readers of SA. The remedies offered by me will be based on Vedic Astrology and of Lal Kitab which actually is Elemental Remedy based on Tatvas (Elements) of nature. There lies some doubt about its being a part of Indian Astrology, but in reality its origin is from the Himalayan region of India.

Right Hand Shot Of Tillmann Geiser

Pay special attention to the highlighted areas.

Left Hand Shot of Tillmann Geiser

In this case, I would specifically like to study a time period around 38th year of his age, i.e. just year 2003 (as exact date of start of mental problems is not quoted in the query) as quoted by him, during which he suffered from mental problems and from that time till date (...looking for some job or business).

Which palm lines suggest about strength of various planets? (With reference to lal kitab)

There are some points, which I have marked by encircling some area on the palm which speaks a lot about the strength of some planets; these can be correlated with planets while reading the Horoscope as well.

- On the right hand palm, from the beginning of the heart line, there are many downward moving branches, which run up to a length of an approximate age of 38 years, this confirms the position of the planet Moon being very weak and during this period, the native will have to face some emotional set backs, which appears to be a continuous process.
- At the age of approximate 38 years of native, just below the Mount of Sun, a break appears in the Heart Line. This is an indication of serious ill influence by the planet Moon, which disturbs the native at an emotional plane, which at a later stage transfers its effects to the mental plane (represented by the planet Mercury).
- At the point encircled and marked No 3, there appears a break and a cross, from within the break on the head line and the cross a fine line moves towards the Saturn Finger (Long Finger) which indicates about the weakness of the planet Mercury and the line towards the Mount of Saturn displays some ill influence at this time by the Planet Saturn.
- After this break in Head Line, it's further stream stands adversely affected and this line appears to be followed by an axe line (kuthar rekha), which represents its effects just equal to an Island formation (confusion in making decision due to duality of thoughts, while making any decision) and confirms further influence of planet Mercury to be read as weak for future readings from Horoscope.
- In both hands, presence of a broken Girdle of Venus, which crosses the mounts of Saturn and that of Sun, thus renders their influence weak. This line also cuts the Line of Sun and reduces its strength. This also adds to emotional sensitiveness and Venus in such hands generally gives negative effects.
- 6) Analysis of area concerning Life Line it is also a weak line which tells about the weak constitution and is not capable of giving a smooth life pattern.
- 7) Mount of Mars is depressed and is covered by a number of lines, which renders planet Mars as a weak planet.
- 8) Fate line too is cut down by a cross line at the age of 38 years, after which it is not clear in your palm shot, where as the line of Sun can be traced after this period.

Planets in horoscope:

- 1) Planet Sun is placed in the 12th house, which is associated with Saturn in Navamsha Chart and is at 23 degree. This placement of 2nd lord in the 12th house is a negative point, which will affect the native's financial position and add to unwanted expenses of his savings and earnings (because Venus the 11th lord of the Chalit chart Is placed in the 2nd house in Leo)
- 2) Planet Moon is placed in 5th house and is in association with its permanent enemy Ketu, which generally eclipses Moon and at the same time, it is also in its debilitation sign i.e. in Scorpio. When, ascendant lord is very weak and is under malefic influence through aspect of 8th lord, Saturn renders natives live a struggling life, make a note of this rule.
- 3) Mars in this chart appears to be a bit powerful due to its good position in Navamsha Chart, but it's placement in 3rd house (6th from 10th house) in basic horoscope renders it as a trouble creating planet regarding career.
- 4) Mercury is also not a good planet for natives with Cancer ascendant, because of its inimical relations with Moon. Mercury is also the lord of 3rd and 12th house. Mercury is also associated with Ketu in Navamsha Chart.
- 5) Jupiter is placed in 11th house in association with Rahu, which turns Jupiter to a silent spectator hence makes Jupiter ineffective.
- 6) Venus, which is supposed to be a beneficial planet for Cancer Ascendant, is also receiving ill influences from Rahu, which is occupying it's sign Taurus (because Rahu and Ketu give their influence through that planet, in whose sign they get placed). In the Navamsha Chart, Venus is also associated with Ketu.
- 7) Saturn is placed in the 8th house as 8th house lord, and aspects Moon the ascendant lord, which adds negative influence by affecting Moon.
 - Relation of Rahu and Ketu's stand is already explained in above quoted planetary positions.

Transit of planet Saturn during 2003:

On 01/01/2003, Saturn was at 0.30 degree in Gemini and on 31/12/2003, it was at 15.52 degree in the same sign. This placement was in 12th sign from Ascendant, where Sun is placed which is also the 8th sign from the Moon. All health related problems were caused due to the ill transit of Saturn the 8th lord, transiting the planet Sun, which is placed in the 8th from the Ascendant lord Moon. It is said that when Saturn transits 8th house from Moon, it creates trouble just equal to death (serious health trouble) or imprisonment to the native.

Suggested Remedies:

- 1) Donate rice / milk on Monday; try to get blessings from seniors by paying respect to elderly persons.
- 2) Wear a white pearl in right hand ring finger.
- 3) Donate green millet (SABUT MOONG) on Wednesday.
- 4) Make it a habit to clean your teeth with water first, as and when you rise early in morning.
- 5) Avoid losing temper and develop a balanced nature in behaviour with every one.
- 6) Reference Sun line even after this period of trouble, it indicates that although you are hard working, but due to the absence of a clear Fate line and island formation in the Head line you feel confused in taking any decision in selecting a proper path in your life (regarding career). Try to fix your mind in a single direction and you can become a good healer.
- 7) Avoid wearing black color clothes and refrain from alcoholic drinks.
- 8) Place common salt and green millet in two earthen pots separately in your bed room.
- 9) Good moral character is must for those, in whose hands; Sun line is cut / crossed by presence of Girdle of Venus, if they want to derive full results from Sun Line.

Sh. Chiranjilal Purohit Ji has asked only about his Ketu Mahadasha period, but I will discuss some other aspects of this horoscope, which will throw some light regarding to health related field.

In the birth chart Ketu is placed in the Ascendant in association with Venus and Jupiter. 1st house lord, Sun is placed in the 12th house along with planet Mercury (lord of 2nd house), but in Nirayana Chalit Chart, Ketu is placed in the 12th house along with Sun and Mercury. The second combination which is of worth mentioning in this chart is that of planet Moon and Saturn, which are placed in the 6th house. The current transit of Saturn is in Virgo. In the Ashtakavarga tables, Saturn had received ZERO benefic aspect, thus the transit of Saturn in this sign will give malefic effects.

According to LAL KITAB system of prediction, in the current year annual chart, all the four house in centre of horoscope i.e. 1st, 4th, 7th and 10th house are lying vacant and Rahu is placed in 8th house, for which some specific remedy of Rahu is required to be performed.

Lalkitab Chart Year 2009 - 2010

Overall, effects of all above combinations can be summarised in a few words:-

- 1) Effects of Ketu will be specific to health weakness in lower limbs, starting from Lumbar region and also general debility because of its malefic effects on planet Sun, the ascendant lord.
- 2) Ketu will also create some skin related diseases, i.e. some kind of skin allergy, eczema or boils.
- 3) Ailments produced during planet Ketu Mahadasha confuse medical attendants in diagnosis.
- 4) Above combinations will also affect Vision because, as it affects the 2nd lord, Mercury and both luminaries in the Chalit Chart i.e. Sun and Moon are afflicted.

Suggested Remedies:

- 1) Worship Lord Ganesha.
- 2) Give bread to Dogs out of your food and serve mixed grains of seven types (SAPTDHANYA OR SATNAJA) to birds.
- 3) Float dry coconut in running water on Saturday or donate mustard oil on this day.
- 4) Avoid wearing Black, Blue or clothes of mixed colours i.e. black and white combination, a combination representing planet Ketu.
- 5) To strengthen planet Sun, avoid excess intake of common salt, avoid losing temper and take some sweet after breakfast.
- 6) To protect your eyesight, which may also be affected due to combination of planet Moon and Saturn, don't take pure water for 43 days, while taking water, mix something, such as sugar, common salt, lemon, milk or fruit juice etc.
- 7) To ward off ill influence of planet Rahu's placement in 8th house in this years chart, it is advisable (if you can perform): take eight kgms of wood charcoal, four kgms of metal Lead (cut in eight pieces and float these items in flowing waters on any Saturday during day time and make sure that the skies are clear and sunny.

(Hand Prints Not Provided For Readings)

Important Note (Why Hand Readings Are Must)

While doing Astrological calculations as per data provided, I noticed that three planets i.e. 1st. Saturn 2nd.Rahu and 3rd Ketu were transiting at a degree, in which these may occupy different houses while using different Ayanamsa tables for calculations at that period, so two different charts as per Chitrapaksha Ayanamsa and B.V.Raman Ayanamsa are given below, however in both cases, Niranayna Bhav Chalit Charts are same.

In such cases, where planets present a doubtful picture, it is a must for an Astrologer to apply corrections based on readings / confirmations from some major life events or to do rectifications according to Samudrik Shastra i.e. by reading planets from palm lines or other aspects based on ILAM-E-QIAFFA (as per LAL KITAB).

Lalkitab Chart Year 2009 - 2010

Bhav chalit kundli plays an important role while interpreting a horoscope (as Late, Pandit Kewal Krishan Ji, RajJyotishi, from Patti Amritsar used to say that : BINA CHALIT CHAKKRA, NATTO JANAM PATRA, which means that without Bhav Chalit Kundli, a Horoscope is of no value. This rule will apply here in such cases, where planets at such degree, as in this case present a doubtful

Overall, effects of all above combinations can be summarised in few words...

- 1. Placement of Saturn in 3rd house, which is 6th from 10th house, and placement of Moon, which is 6th lord from 10th house in 10th house plays a negative role in relation to the career. Further, in Chalit Kundli, Mars is associated with Saturn, which is lord of 12th from Ascendant and that sign is also occupied by a malefic planet Rahu.
- 2. Sun, which is the 4th house lord, is also weak in birth chart as well as in Chalit Chart.

Mercury is also placed in 6th house in birth chart.

The main Karaka Planets are weak as the major planets are in Baal or Mirit awastha (just below 5 degree or beyond 25 degree), and Jupiter is also combust, so it can be clearly interpreted as a life full of struggles.

Suggested Remedies:

- I. Pour milk on Monday in some well.
- 2. Daily feed some part of your food to crows.
- 3. Avoid use of black color and reduce excess intake of common salt.
- 4. Be balanced in behavior just like a scale.
- 5. Wear green emerald or onyx in short finger or ring finger of your right hand on Wednesday.
- 6. Worship Durga Maa, as you are currently passing a Mahadasa Period of Mercury.
- 7. Saturn is also in transit of 8th house from Moon, so make it a habit to float Dry Coconut on Saturday in running waters.

Right hand shot:

Left hand shot:

From hand shots of David Suche, it can be very clearly noticed that in the Right Hand, a line from beginning of life line moves towards the mount of Jupiter, this makes him very much ambitious and adds leadership qualities by birth. Fate line tell a story of a self made person, who will rise to a high level with it's self working and will invest most of his earnings in landed and buildup properties. A faint line, which I have highlighted with pen tool, starts from life line and moves up into mount of Saturn, confirms above mentioned type of investments. But, it's negative influence is that, in the long term, as and when the time to enjoy the fruits of his fate comes, Saturn will withdraw all support and ruin the native and bring him on footpath, especially when such properties are used as living as resting places temporarily for visitors. (Negative influence of planet Saturn)

Life Line, which is forked towards its termination, points out towards a weak health and a life full of financial crisis towards old age. (A fork is the sign Mars negative - MANGAL BAD).

Poor formation of Heart Line at various points (just from its very beginning and also at later age periods) is an indication of weak Moon, which represents a very much disturbed emotional life.

In his Left Hand, Fate line is fragmented at various levels, which shows a much variable life style. Life Line is absent towards termination, which is treated as a bad sign in any hand. The Head Line also moves upward to join the Heart Line towards its termination. This is an indication of emotional shock, after which the brain force loses its co-ordination of thoughts and ideas which are to be implemented in future plans.

A strange picture of life is presented in both palms, which tells that FORTUNE TURNS LIKE A WHEEL OR JUST LIKE A SWING, WHICH MOVES UP DOWN OR CAN BE COMPARED WITH RAINBOW COLORS. This means that at one point of time there will be ocean full of riches and at the other there will be no shine like sands of poverty.

Similarly, weak status of above mentioned three planets i.e. Saturn, Mars and Moon is visible and total spoiling of game of life appears to have occurred during the negative transit of planet Saturn from planet Moon and Vimshottari Mahadasha of planet Saturn.

Suggested Remedies:

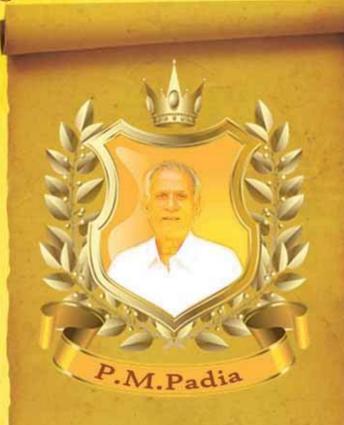

- 1. Float dry coconut in running waters on Saturday.
- 2. Wear a white pearl of approximate weight five carats.
- 3. Give sweet bread to poor.
- 4. Avoid wearing black clothes.
- 5. Try to keep your mind cool and calm.

M. Padia is an unknown name in India

but in the West he is known as the guru of the man who introduced Vedic astrology in America, yes the guru of James Braha. Every American reads Mr Braha's books when he starts Vedic astrology. James first learnt astrology from R. Santhanam & then had to come back to India and learn from Padia Saheb whom he immortalized in his books. Padia Saheb learnt astrology through 3 books and then mainly from his meticulous observation skills sharpened through decades. He has been a beloved friend of Saptarishis Astrology since many years and now has written the very first article of his life for Saptarishis Astrology at this ripe age of 70. We expect many articles to come out of his experience and in this venture SA Team member Andree Leclerc's hard work is appreciated in teaming up with P.M.Padia and making this possible.

Ascertaining Marriage Life -

Divorce Rules

By

P. M. Padia, India.

Assistant redactor: Andree Leclerc, Canada

Proofing: Carole McMechan, Canada

n my long experience as a professional Jyotishi, I had many occasions to witness countless relationship problems in marriages. Out of observations, I have noticed that there are specific combinations in charts that are indicative of marriage problems and, when they cumulate together, a divorce is sure to happen. One should not forget Desh, Kala, Patra that are country, time and customs of the native before venturing into blindly applying these rules. Some of these rules you would find working in charts of natives with happy married life and there are special rules which would be given in the next issue which will cancel the negative yogas mentioned in the rules below, these are most important and should not be forgotten.

For ascertaining the marriage life of a native or even matching of horoscopes between 2 partners, we should consider the following rules:

General Rules:

1) The 1H (the native himself), 2H (family) soubhagya of spouse, 4H (domestic happiness), 7H (spouse, span of marriage life, sex desires), 8H (soubhagya – span of marriage life and sex ability), 12H (sexual compatibility, bed pleasure). If these houses or their

壨

Lords are afflicted by natural malefic planets (Sun, Mars, Saturn, Rahu, Ketu), the married life will be disturbed and give separation or divorce. If we find afflictions to 3 or more of these factors, the chances of problems increase. Please note that for this method, it is more important to consider the 7H, 8H and 12H with their Lords and karaka (significator) of 7H (Venus for males and Jupiter for female). Most important if the lord of 5th, 7th, 8th or 12th is retrograde and if it is malefic and at the same time in any of these houses (5, 7, 8, 12) then there will be more chances of divorce.

2) Same observations as above will have to be made in the Navamsha chart (D-9) particularly the good or bad Navamsha positions of the Rashi Lords of 7H, 8H and 12H. So, we should analyse the Navamsha in itself like we've done for the rashi and also see the Navamsha positions of the rashi lords.

Note: the Karaka for the 2H is Jupiter - for the 4H it is the Moon - for 7H is Venus or Jupiter.

Nakshatras Based Rules:

- 3) If the Center point (cusp) of the above bhavas (1H, 2H, 4H, 7H, 8H, and 12H), their Lord and their karakas are in Nakshatras of malefic planets, especially Ketu and Rahu, then marriage life will be disturbed. The cusps considered here are according to the Sripathi Bhava calculations (all Vedic astro softwares should have this option).
- 4) The Moon does not give good results in Anishtakaal Nakshatras (bad for Moon). Following are the Anishtakaal Nakshatras:
 - a. The 2nd and 3rd padas of Pushya (6°41 to 13°20 Cancer)
 - b. Ashlesha (16°41 to 30°00 Cancer)
 - c. Magha (o°00 to 13°20 Leo)
 - d. 1st pada of Uttara Phalguni (26°41 to 30°00 Leo)
 - e. 1st and 2nd padas of Chittra (23°21 to 30°00 Virgo)
 - f. 4th pada of Vishaka (o°00 to 3°20 Scorpio)
 - g. Jyeshta (16°41 to 30°00 Scorpio)
 - h. Mula (0°00 to 13°20 Sagittarius)
 - i. 3rd pada of Purva Ashada (20°01 to 23°20 Sagittarius)

If the Centre point of 1H, 7H, 8H and 12H is in the above mentioned nakshatras or the Lords of the 7H, 8H, and 12H and 7H karaka (Venus or Jupiter) are in the above mentioned nakshatras, this will give disturbance in married life.

The Moon in these Nakshatras will give hardship in life. At the time of birth, if Moon is in any of these nakshatras, the birth time is called Anishtakaal (Inauspicious time). To remove the inauspiciousness of these, Vedic astrology suggests performing particular religious Pooja.

5) If Venus is in the 1st pada of Ashwini Nakshatra (0°00 to 3°20 Aries) or, if Venus occupies Krittika Nakshatra (26°41 Aries to 10°00 Taurus), married life will be disturbed.

Other Principles:

- 6) When the 12L is aspecting or conjunct the 7H, or the 7L or 7H karaka or, if the 7L or its karaka is in the 12H and afflicted by malefic planet.
- 7) Ketu or Rahu being in the 7H or any two malefic planets conjunct in the 7H or with the Lord of 7H or its karaka then disturbance in marriage life occurs.
- 8) Saturn in the 2nd, 8th or 12th house aspected or conjunct with other malefic planets.
- 9) The Lord of 2H in the 12H or vice versa.
- 10) When the 8L and 12L conjoint or aspect each other this also is bad for marriage life.
- II) Malefic planets afflicting houses 6 and 12 or their lords or karakas of 7H, is one of the reasons of divorce (because 6th and 12th houses are for sexual compatibility and bed pleasure for each partner).
- 12) If the 7th Lord or karaka is placed in the 6, 8 or 12 house or, if the Lord of 6, 8 and 12 is in 7H afflicted by malefic planets, this may also give divorce. If any of these factors are retrograded, it will also disturb marriage life.
- 13) In the native's chart, if Venus and Jupiter are in the 6H or 8H from each other, this gives disturbance in married life.
- 14) 7H, 8H, 12H or its lord or karaka(s) of 7H being hemmed in by natural malefic planets (called Papakartari yoga) brings afflictions.

If any 3 principles or more apply on a chart, then divorce can be predicted depending on the strength of the planet to give effect or not.

Master Principle for Exceptions:

15) If the Lord and/or karakas of houses 1, 2, 4, 5, 7, 8 and 12 are in an angle house (kendra) or in a trine house (trikona) and are aspected by, conjunct with, or 'hemmed in' (Subha Kartari yoga) by benefic planets, this will protect and save the marriage life. Similarly, if benefics occupy, aspect or hem in the above houses, it also proves beneficial.

So, above all, we need to judge how many bad and unfavourable yogas are present and evaluate their strength. At the same time, we should see how many good and favourable yogas are found and what their strength is. If bad yogas are more powerful than good yogas, this will definitively create difficulties, disappointments, hardships and unhappiness in the life of the native. And if good yogas are prevailing over bad yogas, there will be happiness, harmony, peace

and progress and marriage life will thus be saved. This mastery of finding the fine balance between good yogas and bad yogas and coming to a conclusion can come to you only with 'Experience' which no course in astrology can teach.

We will examine some charts to get a better view of the intertwining of these factors. Let's see which one from our selection of famous personalities will win the laureate of afflictions (competition will be tight between some of our candidates). Our first criteria will be the number rules for each and for the finalists, we'll give you the count of afflictions present.

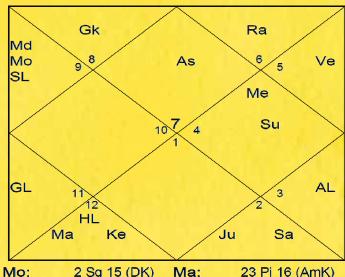

Chart 1: Martha Stewart

Well-known American entrepreneur. In 1960 she met Andy Stewart, 23, a Yale law student and they married the following year; one child.

To her dismay, Andy moved out in 1987 and they divorced in 1990. The separation was not amicable and Andy got a court order to keep Martha away. A non-stop compulsive achiever known for a tendency to run over people, she was said to have put Andy down often.

Let's start with rule #1 which spells out that houses 7, 8 and 12 with their Lords and 7H karaka are the first factors we want to examine. We'll immediately note that the 7H is hemmed in, its Lord is in the 6H of quarrel and divorce with Ketu and the 7H karaka is in the 8H with Saturn and receiving Rahu's aspect – this is bad... Mars is also the 2H Lord. This also implies that houses 6 & 12 are damaged (rules 1, 6, 7, 10, 11, 13 apply).

Saturn (the Lord of the 4H) is well placed in the sign of Taurus (Kubera = wealth – is she not the glorious and prosperous queen of household?), but it is in the malefic 8H. It is with Jupiter, a natural benefic who is nonetheless by its dispositorship of Mars & Ketu. The 1st & 8th Lord, Venus, is hemmed in (rules 1 & 7, 11, 13).

The 1H receives Mars' aspect, 2H does receive Saturn & Ketu' aspects and the 4H receives Sun & Rahu's glances. Nevertheless, Jupiter does aspect the 12H, 2H of family and 4H of domestic happiness but these are not free from malefic influences – besides, the 4H karaka the Moon, receives no malefic aspects but no benefic glances either so, rule 14 does not apply. This kinds of bundles it for marriage troubles but we'll still list the Nakshatra afflictions, just in case anyone had any doubt.

Nakshatra afflictions...

The Ascendant is in Swati (Rahu is Lord) and Saturn the 4th Lord, is in Krittika (Sun) (rule 2). The Moon is in Mula (Lord Ketu) (rule 3).

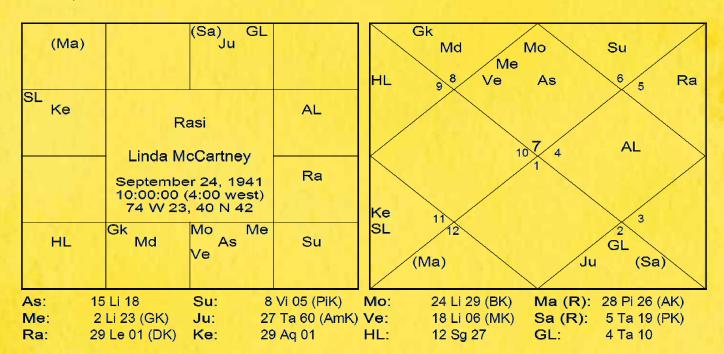

Chart 2: Linda McCartney

American photographer and musician, a chef and cook-book writer who also happened to the wife of former Beatles Paul McCartney. Together, they lived an uncommonly stable marriage contracted on 3/12/1969. For 29 years, she and Paul never spent a night apart except for one ten-day period when he was arrested and held in a Tokyo jail for having marijuana on his person. They lived most of their time on a farm in West Sussex, England.

But before, while a student at Sarah Lawrence and the University of Arizona, she married, had a daughter and divorced in 1963.

Her marriage to Paul McCartney ended when she died of Cancer on April 17, 1998 in Tucson, AZ.

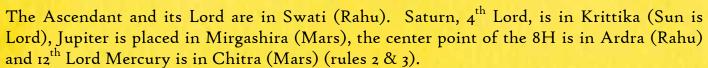

Born about 2 months after Martha Stewart, we will observe some similar positions as they even have the same Ascendant.

Again here the 7H is hemmed in and is aspected by Rahu since the Nodes have changed houses. So now the Lord of the 7H and 2H, retrograde Mars, is alone in the 6H of quarrel and divorce and faces Rahu's dispositor, the Sun, placed in the 12H so, houses 6 & 12 are also damaged – especially since Mars' can't help misbehaving, being retrograde. The 7H karaka, Jupiter (dispositor of Mars & 6L), is with retrograde Saturn in the 8H. Saturn (Lord of houses 4 & 5) is well placed in the sign of Taurus, but it is in the malefic 8H and it not on its best behaviour either due to retrogression and being dispositor of ketu. Mercury, the 12th Lord is in the Ascendant and aspects the 7H. Mercury is conjunct Lagna Lord Venus and 4H karaka Moon – these 3 receive Ketu & Mars' glances (rules 1, 5, 7, 10, 11, 13 apply).

The 2H receives Jupiter & Saturn's aspects. Jupiter also positively aspects the 12H and 4H - let it be mentioned that the 4H as such receives no malefic influence. Venus, 4H karaka Moon and Mercury are in the Ascendant, an angle, creating Malavaya, Raja and Dhana yogas. This brings positive relief although Mars and ketu still aspects them all. Additionally, Jupiter and Venus are in 6/8 relation (rules 1, 12, 14).

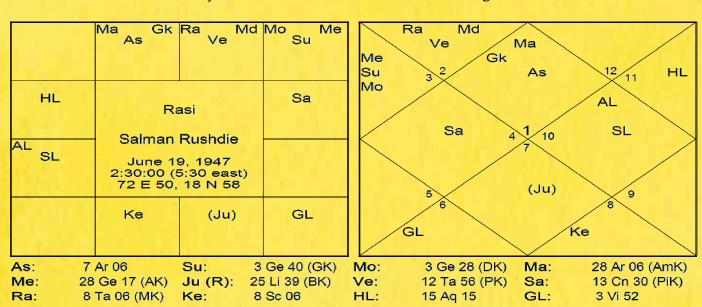

Nakshatra afflictions...

Linda McCartney amazingly gets 9 negative rules but these are not as excruciatingly negative as in Martha Stewart's case (or other celebrities below) as there is a sense of balance brought in by favourable yogas – we must conclude that some of the afflictions affected her in other ways (like dying of breast Cancer with the Moon conjunct 8L & 12L and receiving Mars' aspect).

Chart 3: Salman Rushdie

Indian writer, a Moslem famed for the condemnation by the Ayatollah of Iran along with his death sentence given on 2/14/1989, for writing his book "Satanic Verses," 1989. He was married to his first wife Clarissa Luard from 1976 to 1987 and fathered a son, Zafar. He married American writer Marianne Wiggins in 1988. They divorced 3/02/1993. In 1997 he married Editor Elizabeth West and the couple had a son in May 1997. Still married to West, Rushdie became a couple with 29-year-old Indian model, author and New York City society girl Padma Lakshmi in early 2000 and they married in Manhattan on April 17, 2004 in a traditional Hindu ceremony. This was Rushdie's fourth marriage.

Controversial Mr. Rushdie has Mars in the Ascendant, in its own sign (Ruchaka yoga) and mutually aspected by both Jupiter and Saturn (Raja & Dhana yogas). Retrograde Jupiter (also 12th Lord) in the 7H is aspected by Mars and Saturn. Mars is also 8th Lord. Ketu in the 8H aspects the 4H and the 12H. Venus in the 2H is with Rahu and hemmed in (rules 1, 5, 9, 11, 13 apply).

Lord and karaka of 4H, the Moon, is exactly conjunct the Sun (Amavasya) and becomes a malefic. The 6H receives Saturn and Rahu's aspects and we have already seen the condition of Jupiter as 12th Lord. Venus and Jupiter are in 6/8 relation (rules 1, 10, 12).

Other favourable yogas such as Guru-Mangala, Kalpadruma and Vipareet are also present. To all this, we can add a full course of...

Nakshatra afflictions (!)

The Ascendant is in Ashwini (Ketu) while the centre point of the 2H is in Krittika (Sun), that of the 7H in Swati (Rahu), of the 8H in Anuradha (Saturn) and of the 12H in Uttara Bhadrapada (Saturn) – so, the centre points of 5 out of the 6 houses under scrutiny are afflicted. Additionally, Ascendant Lord Mars (1H & 8H) occupies Krittika (Sun), 4H karaka Moon (also 4th Lord) is in Mrigashira. (Mars) (Rule 2) (He sure looks like the winner

With all this action, Salman Rushdie gets 8 negative rules all categories considered.

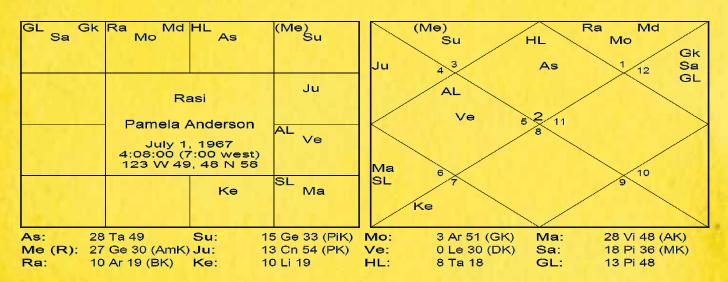

as far as Nakshatra afflictions are concerned... so far).

Chart 4: Pamela Anderson

Canadian-American actress, star of the most watched TV show in history, "Baywatch," a sand-sex-surf-saga marketed to more than 40 countries and watched by a billion people every week.

After a four-day courtship with "Motley Crue" drummer Tommy Lee, she married him on a beach in Mexico, February 1995, wearing a white bikini. They had a son on 6/05/1996. With stormy battles over substance abuse, she filed for divorce on 11/19/1996, Los Angeles, they reconciled five minutes later. The marriage finally broke up in spectacular demonstration of spousal abuse that took Tommy Lee to jail and Pamela to the divorce court. He kicked her once in the back and once in the buttocks. She filed a court order to keep him away.

In April 1999, Pamela had a much publicized bust reduction to balance her exaggerated top-heavy shape. This monumental event was followed with the announcement of reconciliation with her drinking, tattooed mate, referring to his beating as an "isolated event." On 4/23/1999 she moved back to their \$1.5 million Malibu home, thrilled that her boys have their daddy back. Their reconciliation soon ran its course and by 2001, Pamela was hot'n'heavy with rocker Kid Rock.

Free from the afflictions we seek, the 7H even receives an exalted Jupiter aspect (rule 14!) 7L Mars, however, is opposite Saturn while karaka of 7H Jupiter (also 8H Lord), in the 3H is free from aspects. The 8H that shows the gains from marriage receives the combined aspects of Sun, Mars, Saturn and Rahu (that hurts!) Rahu conjunct the fourth house karaka

Moon sits in the 12H that also receives Mars' aspect – this goes to say that the axis of the 6th and 12th house is harmed by the Nodes (rules 1, 10, with intensity).

The Ascendant is hemmed in between Sun and Rahu and its Lord (Venus) receives Rahu's aspect. The 2nd Lord is retrograde, conjunct the Sun and they receive Ketu's aspect (rules 1, 13). Pamela also has favourable Raja and Gajakeshari yogas.

Nakshatra afflictions...

While the Ascendant is in Mrigashira (Mars), its Lord is placed in Magha (Ketu). The 4th Lord Sun is in Ardra (Rahu). The 4H centre point is Ashlesha (Mercury), 4H karaka Moon is in Ashwini (Ketu), that of the 7H is Jyeshta (Mercury) and 7H karaka Jupiter is in Pushya (Saturn). Then the 7th & 12th Lord, Mars, occupies Chitra (Mars) (rules 2 & 3).

So (hey) Pamela Anderson gets 5 negative rules.

Chart 5: Woody Allen

American comedian, writer, actor and film director, screenwriter, play writer and musician, gifted and appealing. The ultimate pessimist, Allen is an hedonic, one who is psychologically unable to enjoy himself; in therapy for over 20 years, perhaps the funniest neurotic of the 20th century.

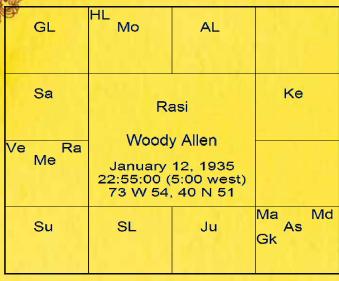

At 19, he married a 17-year-old student, Harlene Rosen. The marriage lasted five years. He married a second time, to actress Louise Lasser, and they had several good years together before calling it quits.

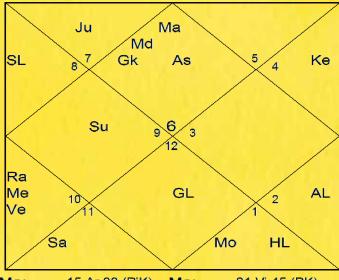

He is said to have been 'together' with his co-star of 5 movies, Diane Keaton.

In the fall of 1979 he met Mia Farrow, who had seven children. They slowly began a relationship early in 1980, wondrous at how different they were. The relationship began falling apart in the end of the '80s.

On 12/01/1991, he began an affair with Soon-Yi (about age 21), one of Farrow's adopted tribe. When Farrow found out, it became a highly public explosion. She accused him of molesting daughter Dylan on 8/04/1992, which was never proven.

On a chilly afternoon, 12/23/1997, Allen, 62, married Soon-Yi Previn, 27, at a municipal building in Venice, Italy.

To start with, the 7H receives aspects from Ketu and Mars; 7L & 4L Jupiter is in the 2H facing the benefic Moon and karaka Venus is conjunct Rahu that creates a Pitru dosha in the 5H. Venus is hemmed in by Rahu and Saturn. The 8H, where 4H karaka Moon is placed, receives Saturn & Mars' aspects and the 8L is aspected by Rahu. Saturn in the 6H aspects the 12H and Mars aspects 12th Lord, the Sun (rules 1, 10, 13, 14).

Mars in the Ascendant receives Rahu's aspect – same Rahu is in a very close conjunction with Mercury, the Ascendant Lord (rule 1).

Nakshatra afflictions...

His Ascendant escapes difficult Nakshatras! But then, the centre point of the 2H is Swati (Rahu), that of the 4H in Mula (Ketu), that of the 7H Uttara Bhadrapada (Saturn), for the 8H it is Ashwini (Ketu) and the 12H cusp is in Magha (Ketu). The 12th Lord Sun is in Uttara Ashada, its own Nakshatra (rules 2 & 3). To balance his difficulties, Mr. Allen also has Raja, Dhana, Gajakeshari, Kalpadruma and Brahma yogas.

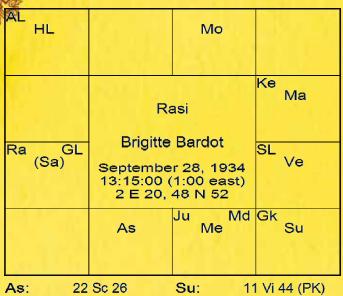

We've got 5 consistent negative rules for Woody Allen.

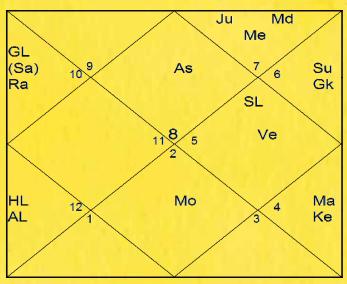

Ready for another cinema character? Here she comes....

The 7H has the 4H karaka Moon (9L) and they both receive Rahu's glance. Meanwhile, Venus (7L and 12L) is uncomfortably sandwiched (hemmed in) between Ketu/Mars in Cancer and Sun in Virgo whilst the 7H karaka Jupiter (2L & 5L), conjunct Mercury (8L) in the 12H, receives Mars and Saturn's aspects (7H matters get a full score). The 8H receives Jupiter's benefic aspect and retrograde Saturn (4L), is conjunct Rahu and aspected by Ketu conjunct Mars (6L) intensifying the difficulties. This means that the 6H/12H axis is afflicted (rules 1, 8, 10, 11, 13).

The 4H receives Mars and Venus' glances and no aspects are found on the 2H (rule 1). Some of the favourable yogas ornamenting Ms. Bardot's chart are Chamara, Amala, Brahma, Raja and Dhana yogas...

Nakshatra afflictions...

The Ascendant is in Jyeshta (Mercury) and the 2H cusp is in Uttara Ashada (Sun). The 7th and 12th Lord, Venus, occupies the 1st pada of Uttara Phalguni (Sun). Meanwhile, 7H karaka and 2nd Lord Jupiter is in Chitra (Mars) and 4th Lord Saturn is in Dhanishta (Mars) (rules 2 & 3).

Brigitte Bardot gets a pungent 7 negative points.

Chart 7: Donald Trump

American entrepreneur who made a fortune estimated at \$1 billion by finding and buying losing properties and turning them around.

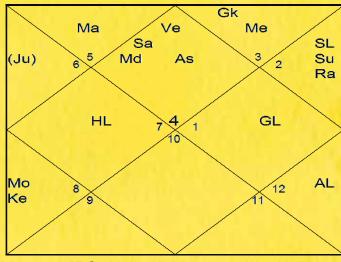

Trump had a 13 year marriage with Ivana whom her met in 1975, producing three children; Donald Jr. in 1978, Ivanka in 1982 and Eric in 1986. Their divorce in 1991 was highly publicized with accusations of his affair with Marla Maples and Ivana reaming Trump for as much as she could at the time, settling for a \$3.5 million dollar home and \$14 million. With this being only 1.5% of his net worth, she continued to pursue for a higher settlement. With the publication of Ivana's tell-all book, Donald brought a \$25 million law suit against Ivana

7/30/1992 for breach of privacy. His tempestuous relationship with Marla Maples included a public shouting match in October 1992 in a restaurant. Their daughter Tiffany was born 10/13/1993. Trump separated from Marla in May 1997 with a pre-nup between one and five million.

Giving her a \$2 million 12-carat diamond ring, Trump became engaged to Slovenian-born model Melania Knauss on April 26, 2004. They have lived together for the past five years. The 7H receives a mixture of Rahu, Jupiter, Venus and Saturn's glances. Saturn (7L & 8L) is conjunct karaka Venus in the Lagna and they both receive Ketu's aspect. The 8H receives Mars' aspect while the Sun (2L) is conjunct Rahu. Retrograde 2H karaka Jupiter (6L & 9L) receives Rahu and Saturn's glances. Mercury, the 12L is in his own house and receives no aspects – however, the 12H is hemmed in between Sun/Rahu and Saturn (rules 1, 11, 13).

Raja Yogakaraka Mars is in the 2H and aspects the Moon (4H karaka) which is in a fallen condition and caught up in a total eclipse (!) (Rule 1).

Nakshatra afflictions...

The Ascendant occupies Ashlesha (Mercury) and 2nd Lord Sun is placed in Mrigashira (Mars). The 2H karaka Jupiter is in Chitra (Mars again), the 4H cusp is in Swati (Rahu), the Moon is in Jyeshta (Mercury), the 7H center point is in Dhanishta (Mars) and 12th Lord Mercury is in Ardra (Rahu) (rules 2 & 3). We can easily imagine that Mr. Trump's chart reveals Raja and Dhana yogas but also a Tapaswi yoga for an austere and dedicated person... (to his cause).

"The Donald" gets 5 negative rules.
