Astrology might be viewed as a mystical science, as it manages points that are past the physical domain. All astrological theories lead to the same basics. They state that astrology depends on the reason of divine developments throughout the entire existence of time.

There are different forms of astrology in this world. Some of them are Western astrology, Indian Vedic astrology, Krishnamurthi Paddhati astrology also called KP astrology .In this article we will discuss about the THEORY OF CUSPAL INTERLINK. FEW astrologers believe it as an extended form of KP astrology. It is said that KP framework depends on the better subtleties of both Indian and Western astrology and entireties up to make a progressively exact arrangement of making prediction forecasts. It is said to be more orderly and refined than the customary Vedic type of astrology. This framework offers significance to the 'nakshatra – swami' (star – ruler) as opposed to the planet in a specific 'dasha' for understanding of results. There is a distinction of 6 minutes between the Vedic 'ayanamshas' and the KP 'ayanamshas'. This is on the grounds that the Vedic framework pursues the Lahiri ayanamshas and KP framework pursues KP ayanamshas the two of which have a longitudinal contrast of 6 minutes. An 'ayanamsha' is the longitudinal distinction between the tropical zodiac and the sidereal zodiac.

In KP astrology nakshatra is divided into 9 sections which is known as sub lord yet in Cuspal Interlink theory the sub lord is additionally divided by 9 divisions known as sub sub lord.
